Assessment of the SIMITAR Gunnery Training Strategy Through Development of a Database of Gunnery Outcome Measures Monte D. Smith, 1998 This report assesses the impact of the Simulation in Training for Advanced Readiness SIMITAR compressed gunnery training strategy for Army National Guard ARNG armored and mechanized infantry units This strategy emphasizes the use of state of the art training aids devices simulators and simulations TADSS in response to challenges posed by time and range constraints experienced by ARNG combat units Assessment entailed development of a longitudinal database of gunnery related information generated before 1993 1994 and during 1995 1997 SIMITAR strategy implementation This information was collected from armored and mechanized infantry units from a SIMITAR test brigade and from six enhanced no SIMITAR comparison brigades Overall the SIMITAR training strategy was successful Results showed that final crew level tank gunnery qualification on Table 8 did not differ either between the SIMITAR and comparison units or within the SIMITAR test unit across data collection years Bradley Fighting Vehicle Table 8 qualification rate however did favor the comparison units Perhaps more importantly the SIMITAR strategy permitted most 94% fully staffed SIMITAR platoons to complete gunnery Table 8 with a 45% overall qualification rate and enabled company and higher level maneuver training objectives to be accomplished all within a normal 39 day yearly training calendar Suggestions for research needed to extend SIMITAR training strategy benefits are provided DITC

Successful Strategies for Computer-assisted Reporting Bruce Garrison, 2013-10-18 Computers have changed the landscape of both gathering and disseminating information throughout the world As journalists quickly move toward the 21st century and perhaps a new era of electronic journalism resources are needed to understand the newest and most successful computer based news reporting strategies Written to serve that purpose this book is designed to show both professional journalists and students which of the newest personal computing tools are being used by the nation's leading news organizations and top individual journalists It further describes how these resources are being used on a daily basis and for special projects In recent years computers have taken on new and dominating roles in the process of news analysis newsgathering and news processing Today's forward thinking journalists often seek guidance over what they can do to

strengthen their ability to be society's information processors and managers This volume focuses upon how successful journalists are using computers through a major national computer assisted reporting CAR study of daily newspapers The study included two national surveys and a series of personal interviews with many of the nation's leading CAR specialists Several current examples of stories used for successful database and online oriented news assignments are provided as part of a series of case studies incorporated throughout the book The additional depth of description and the presentation of portions of stories themselves should help readers to understand the complete process involving CAR oriented journalism Substantial analytical detail is used to discuss the extent of computer use in newsrooms computer training CAR projects CAR in daily reporting hardware and software most commonly used levels and types of online services used in news research and portable hardware and software The book concludes with the author's assessment of the effects and impact of personal computing in the newsroom and the future of personal computer applications in newsgathering Explaining and defining advanced applications or terminology for readers the approach to the book assumes a minimal familiarity with computers but no advanced knowledge of computer operation

Sandercock, Kathy Martin, Gernot Segelbacher, 2011-10-04 Grouse an ecologically important group of birds that include capercaillie prairie chickens and ptarmigan are distributed throughout the forests grasslands and tundra of Europe Asia and North America Today many grouse populations are in decline and the conservation and management of these charismatic birds is becoming a global concern This volume summarizes current knowledge of grouse biology in 25 chapters contributed by 80 researchers from field studies around the world Organized in four sections Spatial Ecology Habitat Relationships Population Biology and Conservation and Management the chapters offer important insights into spatial requirements movements and demography of grouse Much of the research employs emerging tools in ecology that span biogeochemistry molecular genetics endocrinology radio telemetry and remote sensing The chapters explore topics including the impacts of climate change energy development and harvest and give new evidence for life history changes in response to human activities

Computer-Assisted Text Analysis Roel Popping, 2000-01-13 Providing an up to date picture of the main methods for the quantitative analysis of text this book begins by overviewing the background and the conceptual foundations of the field The author then covers the traditional thematic approaches of text analysis followed by an explanation of newer developments in semantic and network text analysis methodologies Finally he examines the relationship between content analysis and other kinds of text analysis from qualitative research linguistic analysis and information retrieval Computer assisted Text Analysis focuses on the methodological and practical issues of coding and handling data including sampling reliability and validity issues and includes a useful appendix of computer programs for text analysis

Wildlife Study Design Michael L. Morrison, William M. Block, M. Dale Strickland, Bret A. Collier, Markus J. Peterson, 2008-03-21 We developed the first edition of this book because we perceived a need for a compilation on study design with application to studies of the

ecology conservation and management of wildlife We felt that the need for coverage of study design in one source was strong and although a few books and monographs existed on some of the topics that we covered no single work attempted to synthesize the many facets of wildlife study design We decided to develop this second edition because our original goal synthesis of study design remains strong and because we each gathered a substantial body of new material with which we could update and expand each chapter Several of us also used the first edition as the basis for workshops and graduate teaching which provided us with many valuable suggestions from readers on how to improve the text In particular Morrison received a detailed review from the graduate students in his Wildlife Study Design course at Texas A M University We also paid heed to the reviews of the first edition that appeared in the literature **PC Mag** ,1992-10-13 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology *Canadian Journal of Zoology* ,2000 **Schizophrenia Bulletin** ,1997 **The Patient's Caring Needs** Lisbeth Fagerström,1999

Low-Power Processors and Systems on Chips Christian Piguet,2018-10-03 The power consumption of microprocessors is one of the most important challenges of high performance chips and portable devices In chapters drawn from Piguet's recently published Low Power Electronics Design this volume addresses the design of low power microprocessors in deep submicron technologies It provides a focused reference for specialists involved in systems on chips from low power microprocessors to DSP cores reconfigurable processors memories ad hoc networks and embedded software Low Power Processors and Systems on Chips is organized into three broad sections for convenient access The first section examines the design of digital signal processors for embedded applications and techniques for reducing dynamic and static power at the electrical and system levels The second part describes several aspects of low power systems on chips including hardware and embedded software aspects efficient data storage networks on chips and applications such as routing strategies in wireless RF sensing and actuating devices The final section discusses embedded software issues including details on compilers retargetable compilers and coverification tools Providing detailed examinations contributed by leading experts Low Power Processors and Systems on Chips supplies authoritative information on how to maintain high performance while lowering power consumption in modern processors and SoCs It is a must read for anyone designing modern computers or embedded systems Research Report ,1998 *Mapping Crime* Keith D. Inclusion and Diversity in Education: Inclusive pedagogy in curricula and classrooms Peter Hick,Gary Thomas,2009 This 4 volume set brings together seminal articles and key writings on the theme of inclusion and diversity in education The collection takes disability and special educational need as a starting point from which to develop a broader focus on a range of themes relating to learners who may be marginalised from educational opportunities This includes for example members of minority ethnic communities students excluded from schools or who are looked after in public care and

other dimensions of exclusion arising from social class gender or sexuality The starting point for understanding inclusive education lies in social justice perspectives and this forms the basis for the first volume Volumes two and three focus on research aimed at developing more inclusive practices both at the levels of schools and school systems and at the levels of inclusive pedagogy enacted in the classroom and through the curriculum Volume four reflects the range of voices in research on inclusive education drawing on traditionally marginalised voices and those of learners in particular Three cross cutting themes are represented across all four volumes a chronological approach showing how key concepts and perspectives have developed in each area of the literature identified groups of learners developing more nuanced readings of how processes of exclusion and inclusion intersect dimensions such as disability class and race and contexts for learning such as urban education and global or comparative perspectives *Parklawn Computer Center User's Guide* Parklawn Computer Center (U.S.),1991 *InfoWorld* ,1991-04-01 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects **Tourism Economics** ,1999 **The Relationship Between Prenatal Care Utilization and Functional Levels of Social Support in Low-income Women** Arline Joan Barry,1996 **The Relationship Between Health Status Scores on Hospital Admission and the Care Planned by the Nurse** Mary T.
