**The Introspective Realist Crime Film** Luis M. García-Mainar, 2016-06-10 This book explores the formal and thematic conventions of crime film, the contexts in which these have flourished and their links with the social issues of a globalized world. The crime film has traditionally been identified with suspense, a heterogeneous aesthetic and a tacit social mind. However, a good number of the crime films produced since the early 2000s have shifted their focus from action or suspense and towards melodrama in narratives that highlight the social dimension of crime, intensify their realist aesthetics and dwell on subjectivity. With the 1940s wave of Hollywood semi-documentary crime films and 1970s generic revisionism as antecedents, these crime films find inspiration in Hollywood cinema and constitute a transnational trend. With a close look at Steven Soderbergh's *Traffic* (2000), David Fincher's *Zodiac* (2007), Jacques Audiard's *Un prophète* (2009) and Tomas Alfredson's *Tinker Tailor Soldier Spy* (2011), this book sets out the stylistic and thematic conventions, contexts and cultural significance of a new transnational trend in crime film.

**To Catch a Spy** James M. Olson, 2021 The United States is losing the counterintelligence war. Foreign intelligence services, particularly those of China, Russia and Cuba, are recruiting spies in our midst and stealing our secrets and cutting-edge technologies. In *To Catch a Spy: The Art of Counterintelligence*, James M. Olson, former chief of CIA counterintelligence, offers a wake-up call for the American public and also a guide for how our country can do a better job of protecting its national security secrets. Olson takes the reader into the arcane world of counterintelligence as he lived it during his thirty-year career in the CIA. After an overview of what the Chinese, Russian and Cuban spy services are doing to the United States, Olson gives a masterclass on the principles and practice of counterintelligence. Readers will learn his ten commandments of counterintelligence and about specific aspects such as running double agent operations and surveillance. The book also analyzes twelve actual case studies in order to illustrate why people spy against their country, the tradecraft of intelligence and where counterintelligence breaks down or succeeds. A lessons learned section follows each case study and the book also includes an appendix of recommended further reading. This book will fascinate anyone with an interest in the real world of espionage.
