cyberspace and its inevitable invasions of privacy **Breaking the Sequence** Ellen G. Friedman, Miriam Fuchs, 2014-07-14

These nineteen essays introduce the rich and until now largely unexplored tradition of women's experimental fiction in the twentieth century. The writers discussed here range from Gertrude Stein to Christine Brooke Rose and include among others Virginia Woolf, Jean Rhys, Jane Bowles, Marguerite Young, Eva Figes, Joyce Carol Oates, and Marguerite Duras. Friedman and Fuchs demonstrate the breadth of their research first in their introduction to the volume in which they outline the history of the reception of women's experimental fiction and analyze and categorize the work not only of the writers to whom essays are devoted but of a number of others too, and second in an extensive and wonderfully useful bibliography. Emma Kafalenos, *The International Fiction Review*. After an introduction that is practically itself a monograph, eighteen essayists too many of them distinguished to allow an equitable sampling take up three generations of postmodernists. American Literature. The editors see this volume as part of the continuing feminist project of the recovery and foregrounding of women writers. Friedman and Fuchs's substantive introduction excellently synthesizes the issues presented in the rest of the volume. Patrick D. Murphy, *Studies in the Humanities*. Originally published in 1989, *The Princeton Legacy Library* uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. **In Defense of Love** Ron Rosenbaum, 2024-09-17 Rosenbaum offers a spirited and enjoyable defense of his version of love. *The Wall Street Journal*. A stirring manifesto on love in the modern age, now available for the first time in paperback. In a work of ambition and brio, legendary journalist Ron Rosenbaum tackles his hardest topic yet: everyone's favorite four-letter word. He begins by investigating the neuroscience of love, arguing that our understanding of love is imperiled by quantification and algorithms which distill our behavior into mathematical formulas, our personality into brain-chemical categories, and our curiosity into quiz questions. The very capacity that makes us human, Rosenbaum posits, is being taken over by numbers. To save it, he turns to literature and pop culture, discussing writing about love from a vast range of sources, including Tolstoy novellas, trailblazing Updike manuscripts, David Foster Wallace, and Chrissie Hynde. Part of love's essence is its mystery, says Rosenbaum, and when he eventually finds his own answer to the riddle of love, a happy ending, it turns up in a completely unexpected place. *In Defense of Love* is more than an examination of the intersection of love with literature and science. It is a celebration of the uncanny and the persistent, the sublime and the ridiculous, the inexorable power of love. **The Rough Guide to Rock** Peter Buckley, 2003 Compiles career biographies of over 1,200 artists and rock music reviews written by fans covering every phase of rock from R & B through punk and rap. ***Big Bang*** David Bowman, 2019-01-15 Set in the 1950s, this epic Warholian novel presents a brilliant and wholly original take on the years leading up to the Kennedy assassination. Where were you when you

first heard President Kennedy had been shot This is a question most people can answer even if the answer is I wasn't born yet In this epic novel David Bowman makes the strong case that the shooting on November 22nd 1963 was the major defining turning point that catapulted the world into an entirely new stratosphere It was the second big bang In this hilarious lightning fast historical novel Bowman follows the most famous couples of the decade as their lives are torn apart by post war's new normal We see Lucille Ball's bizarre interrogation by the House UnAmerican Activities Committee and Jackie Onassis' moonlight cruise with Frank Sinatra We follow Norman Mailer and Arthur Miller as they attempt to get quickie divorces together at a loophole resort in Nevada and watch a young Howard Hunt snoop around South America with the newly founded CIA A young Jimi Hendrix now the epitome of counterculture cool tries his luck as a clean cut army recruit Written with an almost documentary film like intensity BIG BANG is a posthumous work from the award winning author of Let the Dog Drive A riotous account of a country perhaps at the beginning of the end
