Copyright Libri GmbH All rights reserved *The Economics of Aging* James H. Schulz, 1992 Now in its fifth edition this text addresses the economic aspects of ageing It provides an examination of the significant advances and changes that have taken place in recent years as they affect US social policy and individual retirement decisions **The Economics of Aging** David A. Wise, 2009-05-15 The Economics of Aging presents results from an ongoing National Bureau of Economic Research project Contributors consider the housing mobility and living arrangements of the elderly their labor force participation and retirement the economics of their health care and their financial status The goal of the research is to further our understanding both of the factors that determine the well being of the elderly and of the consequences that follow from an increasingly older population with longer individual life spans Each paper is accompanied by critical commentary **The Economics of Aging**, 2003 *Studies in the Economics of Aging* David A. Wise, 2007-12-01 Studies in the Economics of Aging is the fourth book in a series from the National Bureau of Economic Research that addresses economic issues in aging and retirement Building on the research in The Economics of Aging 1989 Issues in the Economics of Aging 1990 and Topics in the Economics of Aging 1992 this volume examines elderly population growth and government spending life expectancy and health saving for retirement and housing values aging in Germany and Taiwan and the utilization of nursing home and other long term care **Aging Nation** James H. Schulz, Robert H. Binstock, 2008-05-15 Schulz and Robert H
Perspectives on the Economics of Aging Gölçek, Ali Gökhan, 2024-12-19 The aging of global populations has profound implications for economic structures labor markets and healthcare systems demanding thoughtful analysis and proactive solutions This demographic shift challenges traditional models of economic and social organization while also presenting opportunities for innovation in areas like technology policy and workforce adaptation Understanding the economic dimensions of aging is essential for creating sustainable frameworks that support older adults while maintaining societal growth and equity Addressing these complexities benefits not only aging populations but also strengthens resilience and inclusivity across communities worldwide Perspectives on the Economics of Aging provides an interdisciplinary platform for exploring the multifaceted economic dimensions of aging populations It delves into the economic implications of aging from both global and national perspectives Covering topics such as age friendly housing economic participation and quality of life this book is an excellent resource for academicians researchers policymakers government officials healthcare professionals technology innovators non governmental organizations economists and more **Inquiries in the Economics of Aging** David A. Wise, 2008-04-15 For over a decade the National Bureau of Economic Research has sponsored the Economics of Aging Program under the direction of David A Wise The program addresses issues that affect the well being of individuals as they age and a society that is composed increasingly of older people Within the next twenty years an unprecedented

proportion of Americans will be over sixty five New research in the economics of aging is an essential element of understanding what the future holds for this aging population Inquiries in the Economics of Aging presents both empirical papers that consider questions that are fundamental to public policy and more theoretical contributions that lay new groundwork for future research in the economics of aging Inquiries in the Economics of Aging provides a timely overview of some of the most important questions facing researchers on aging and outlines new techniques and models that may help to answer these questions This important volume will be of great interest to specialists and policy makers as it paves the way for future analysis

The Economics of Individual and Population Aging Robert L. Clark, Joseph J. Spengler, 1980-04-30 This study aims to identify and describe the principle economic issues associated with individual and population ageing In addition the study surveys and assess the existing knowledge including research by scholars of many countries and different fields in the social sciences of the economic and social problems associated with ageing Although the study covers a wide range of issues it focuses primarily on the economic complexities of individual ageing and the macro economic problems that arise from age structure changes in the population The authors giving examples from many countries trace the development of concern for population ageing and examine theoretical concepts and changing demographic conditions Cross national econometric studies are cited along with time series and cross sectional research on individual countries In assessing the state of the literature on the economic problems of ageing the authors have attempted to indicate fruitful avenues for further research

Topics in the Economics of Aging David A. Wise, 2008-04-15 The original essays and commentary in this volume the third in a series reporting the results of the NBER Economics of Aging Program address issues that are of particular importance to the well being of individuals as they age and to a society at large that is composed increasingly of older persons The contributors examine social security reform including an analysis of the Japanese system present the startling finding that the vast majority of people choose the wrong accumulation strategies for their pension plans explore the continuing consequences of the decline in support of parents by children in the postwar period investigate the relation between nursing home stays and the source of payment for the care and offer initial findings on the implications of differences between developed and developing countries for understanding aging issues and determining appropriate directions for research
