The Empty Gourd:

The Empty Gourd Howard Ellis Davis, 1999-10-01 **The Burning Shore** Wilbur Smith, 2007-02-06 Spanning decades and continents from the war torn skies of Europe to present day South Africa this classic novel tells of a beautiful French woman's struggle to make a new life for herself in South Africa **Food and Chinese Culture**, 2005 **Nature through Tropical Windows** Alexander F. Skutch, 2023-12-22 **The Burials of Cerro Azul, Peru** Joyce Marcus, 2024-02-29 This volume reports on the salvage excavations that Dr Joyce Marcus directed after she discovered scattered human remains on the surface of the site of Cerro Azul in Peru. These remains were from a partially looted cemetery dating to AD 1000 to 1470. During the excavations she found the burials of men, women and children. Some of the women were associated with belt looms, woolen bags, workbaskets filled with cotton and wool yarn balls, needles in needle cases, barcoded spindles and decorated spindle whorls. Some of the men were buried with fishing nets, slings, bolas, metal tweezers and breechclouts. Some of the children were associated with miniature vessels, gourd bowls with food and bracelets and necklaces consisting of seeds strung on cords. The two previous volumes Marcus published on the site of Cerro Azul reported on the architecture, pottery and coastal ecosystems of the site.

Burning Shore Wilbur Smith, 2018-01-01 A Courtney series adventure. Book 1 in The Burning Shore sequence. The deck bucked under her feet and she was hurtled backwards on to the bunk again and the blast of a massive explosion ripped through the ship. What is happening she screamed. Love in a time of war. Hope in a time of danger. One of the greatest fighter pilots of the Great War, Michael Courtney, is saved by the French noblewoman, Centaine de Thiry, when he crashes near her home. When Michael is killed, Centaine is determined to live out the future they had dreamed of and sets out alone to travel across the ocean to join his family in South Africa. But no journey is ever simple and a pregnant Centaine finds herself shipwrecked in shark infested waters off Africa's notorious Skeleton Coast, a deadly swim away from even deadlier land, the sun bleached desert that will see her defenceless and alone. When hope arrives she has no way of knowing if she will be saved or left in greater danger than ever before.

Hothouse Brian W. Aldiss, 2015-05-19 A Hugo Award winning classic about a far future Earth dominated by gargantuan plants and the few humans who remain. Millions of years beyond our time, our Earth has long since stopped spinning and giant flora have taken over the sunlit half of the motionless world. Here humans are among the very few animal species that still exist, struggling to survive against enormous odds, but they have become small and weak and their numbers have dwindled to almost nothing. When the aging leader of Gren's tribe decrees it is time for the old ones to go, the younger are left to make their own way below. Although the journey will not be an easy one for young Gren, he sets off on an odyssey across a perilous world populated by carnivorous plants and other evolved vegetation. But any knowledge to be gained at the terminator, the forbidding boundary between the day world and the night might well prove worthless for the boy and the companions he amasses along the way when the expanding sun goes nova and their Earth is no more. A thrilling parable of courage, discovery and survival, *Hothouse* is among
