The Lyfe Of Soule An Edition With Commentary:

The Lyfe of Soule Helen M. Moon, 1978 **De lyfe of soule** Mary L. Pimpl, 1964 **De lyfe of soule** Helen M. Moon, 1963 *Cultures of Piety* Anne Clark Bartlett, Thomas H. Bestul, 2018-09-05 Devotional texts in late medieval England were notable for their flamboyant piety and their preoccupation with the tortured body of Christ and the grief of the Virgin Mary. Generations of readers internalized and shaped the cultures of piety represented by these works. Anne Clark Bartlett and Thomas H. Bestul here gather seven examples of this literature all written in the period 1350-1450, one in Anglo-Norman, the remainder in Middle English. The volume includes an appendix containing the original texts of the latter six pieces. The collection illustrates the polyglottal, conflicting, and often polemical nature of devotional culture in the Middle Ages. It provides a valuable context for, and an interesting counterpoint to, the *Canterbury Tales* and other classic works of late medieval England. The introduction and the translators' headnotes discuss crucial aspects of the texts' histories and thematics, including the importance of the body in spiritual practices, the development of female patronage, and of a wide audience for this literature, and the indivisibility of the political and the religious in medieval times. **A Companion to Middle English Prose** Anthony Stockwell Garfield Edwards, 2004. The essays in this volume provide an up-to-date and authoritative guide to the major prose Middle English authors and genres. Each chapter is written by a leading authority on the subject and offers a succinct account of all relevant literary history and cultural factors that need to be considered together with bibliographical references. Authors examined include the writers of the *Ancrene Wisse*, the Katherine Group, and the *Wohunge* Group: Richard Rolle, Walter Hilton, Nicholas Love, Julian of Norwich, Margery Kempe, Sir John Mandeville, John Trevisa, Reginald Pecock, and John Fortescue. Genres discussed include romances, saints' lives, letters, sermon literature, historical prose, anonymous devotional writings, Wycliffite prose, and various forms of technical writing. The final chapter examines the treatment of Middle English prose in the first age of print. Contributors: BELLA MILLETT, RALPH HANNA III, AD PUTTER, KANTIK GHOSH, BARRY A. WINDEATT, A. C. SPEARING, IAN HIGGINS, A. S. G. EDWARDS, VINCENT GILLESPIE, HELEN L. SPENCER, ALFRED HIATT, FIONA SOMERSET, HELEN COOPER, GEORGE KEISER, OLIVER S. PICKERING, JAMES SIMPSON, RICHARD BEADLE, ALEXANDRA GILLESPIE. *Voice in Later Medieval English Literature* David Lawton, 2017. David Lawton approaches later medieval English vernacular culture in terms of voice. As texts and discourses shift in translation and in use from one language to another, antecedent texts are revoiced in ways that recreate them as public interiorities without effacing their history or future. The approach yields important insights into the voice work of late medieval poets, especially Langland and Chaucer, and also their fifteenth-century successors who treat their work as they have treated their precursors. It also helps illuminate vernacular religious writing and its aspirations, and it addresses literary and cultural change, such as the effect of censorship and increasing political instability in and beyond the fifteenth century. Lawton also proposes his emphasis on voice as a literary tool of broad application, and his book has a bold and comparative sweep that encompasses the Pauline letters.

Augustine's Confessions the classical precedents of Virgil and Ovid medieval contemporaries like Machaut and Petrarch extra literary artists like Monteverdi later poets such as Wordsworth Heaney and Paul Valéry and moderns such as Jarry and Proust What justifies such parallels the author claims is that late medieval texts constitute the foundation of a literary history of voice that extends to modernity The book's energy is therefore devoted to the transformative reading of later medieval texts in order to show their original and ongoing importance as voice work Julian of Norwich Elisabeth M. Dutton, 2008 A new reading of the Revelations in the context of late medieval manuscript traditions Compilation and miscellany manuscripts were widely owned in the late middle ages by both the laity and the clergy Here their possible influence on Julian of Norwich's Revelations is explored The book argues that formal features of compilation are evident in the text deployed by Julian to give authority and didactic force to the theological debate in which she is engaged Combining study of compilation manuscripts and manuscripts of the Revelations with structural analysis it suggests important new ways of reading the Revelations and makes a strong case for compilation as a literary form with creative potential Dr ELISABETH DUTTON is Senior Research Fellow Worcester College University of Oxford Feeling Like Saints Fiona Somerset, 2014-05-08 Lollard is the name given to followers of John Wyclif the English dissident theologian who was dismissed from Oxford University in 1381 for his arguments regarding the eucharist A forceful and influential critic of the ecclesiastical status quo in the late fourteenth century Wyclif's thought was condemned at the Council of Constance in 1415 While lollardy has attracted much attention in recent years much of what we think we know about this English religious movement is based on records of heresy trials and anti lollard chroniclers In Feeling Like Saints Fiona Somerset demonstrates that this approach has limitations A better basis is the five hundred or so manuscript books from the period 1375-1530 containing materials translated composed or adapted by lollard writers themselves These writings provide rich evidence for how lollard writers collaborated with one another and with their readers to produce a distinctive religious identity based around structures of feeling Lollards wanted to feel like saints From Wyclif they drew an extraordinarily rigorous ethic of mutual responsibility that disregarded both social status and personal risk They recalled their commitment to this ethic by reading narratives of physical suffering and vindication metaphorically martyring themselves by inviting scorn for their zeal and enclosing themselves in the virtues rather than the religious cloister Yet in many ways they were not that different from their contemporaries especially those with similar impulses to exceptional holiness **The Call to Read** Kirsty Campbell, 2010 Campbell examines the contribution of Reginald Pecock to medieval theology and his efforts to instruct and reform the religious community ... *The Lyfe of Soule* Universität (Salisburgo).
