The Making of Economic Society Robert L. Heilbroner, 1985 With its roots in history and eyes on the future this book traces the development of our economic society from the Middle Ages to the present offering a balanced perspective of why our economy is the way it is and where it may be headed It explores the catalytic role past economic trends and dynamics particularly capitalism have played in creating the present challenges we face and offers suggestions on how we may deal with them most effectively in the future Chapter topics include the economic problem the premarket economy the emergence of market society the industrial revolution the great depression the rise of the public sector modern capitalism emerges in Europe the golden age of capitalism the rise and fall of socialism the globalization of economic life and why some nations remain poor For individuals interested in the economic history of the U S The Making of Modern Economics Mark Skousen, 2022-01-03 The Making of Modern Economics presents a bold and engaging history of economics the dramatic story of how the great economic thinkers built today s rigorous social science This comprehensive yet accessible introduction to the major economic philosophers begins with Adam Smith and continues through to the present day It examines the contributions each one made to our understanding of the role of the economist the science of economics and economic theory Boxes in each chapter highlight little known and entertaining facts about the economists personal lives that had an influence on their work The fourth edition adds coverage of modern monetary theory the COVID 19 pandemic climate change minimum wage debates Schumpeter and socialism Malthus and immigration and more The Making of Modern Economics is a valuable engaging text for courses in the history of economic thought and political economy *The Making of Economics* E. Ray Canterbury, 1976 *Making Of Economics, The (4th Edition) - Vol I: The Foundation* E Ray Canterbury, 2003-11-11 A classic returns The third edition of The Making of Economics appeared in 1987 Now in a major revision Ray Canterbury brings the book right up to date with new chapters on the casino economy a term the author invented to describe an economy driven by making money with money rather than focusing on real production now overtaken by reality Joseph Schumpeter globalization and general equilibrium Canterbury retains the engaging flavor of the earlier editions by covering the times and ideas of the major economists such as Smith Ricardo Malthus Mill and Marshall while giving ample ink to the remarkable dissidents Marx Veblen Galbraith Heilbroner and other radicals Canterbury again unmask a traditional economics eschewing value judgements but itself standing on hidden ones even as he traces its origins to Isaac Newton s idea of an orderly universe Personal references relate the great economists ideas to the societies in which they lived making the historical figures really come alive Economics is displayed as a developing discipline a discipline still evolving This book is also available as a The Making of Modern Economics Mark Skousen, 2015-01-28 Here is a bold history of economics the dramatic story of how the great economic thinkers built today s rigorous social science Noted financial writer and economist Mark Skousen has revised and updated this popular work to provide more material on Adam Smith and Karl Marx and expanded coverage of Joseph

Stiglitz imperfect markets and behavioral economics This comprehensive yet accessible introduction to the major economic philosophers of the past 225 years begins with Adam Smith and continues through the present day The text examines the contributions made by each individual to our understanding of the role of the economist the science of economics and economic theory To make the work more engaging boxes in each chapter highlight little known and often amusing facts about the economists personal lives that affected their work

The Making of the Economy Till D ppe, 2011-11-16 How did modern man come to believe in the object of the economy What hopes made us accept scientific authority about this illusive thing What kinds of persons were attracted by objective knowledge in economic discourse And how does this knowledge guide our economic life The Making of the Economy tackles such questions surrounding the modern notion of the economy with a fresh look from phenomenological philosophy In a historical narrative of economic discourses Till D ppe shows that only due to the scientific culture of economics we speak of an economy Economic science made the economy Our economic experiences alone do not trigger an interest in the economy which makes Husserl s case for the forgetfulness of the life world D ppe s historical narrative focuses on the emergence of formal economic analysis out of a series of successive life worlds or concrete historical situations an approach which generates a new substantive understanding of both the history of economics and the current discourse of crisis surrounding economics The book will appeal to historians and philosophers of the social sciences as well as scholars of history philosophy and economics
