## **The Hellenistic Aesthetic:**

**The Hellenistic Aesthetic** Barbara Hughes Fowler, 1989 Fowler's own insights are apparent throughout and they seem to distill the personal appreciation and understanding of a scholar who has devoted much of her career to both contemplating and enjoying Hellenistic poetry. This book would make an excellent background text for courses in later Greek and Roman art and it can be read with profit by anyone interested in exploring the character of Hellenistic culture. J. J. Pollitt, *American Journal of Archaeology*. Outstanding is the range of examples discussed both in poetry and art. Theocritus, Callimachus, Appollonius the epigrammatists and others that is the major figures of the time are considered at length and in several different contexts. Passages are quoted in the original Greek translated and analyzed. Fowler's sensitivity to poetic forms evident in her other published writings is again evident here. In addition, however, the philosophical context is not overlooked. Also highly commendable are the liberal references to works of art. Sculpture in the round and in relief, portraits, terracotta figurines, original paintings, grave stelae and Campanian murals, mosaics, gold and silver vessels and jewelry are introduced at various points. Every work of art discussed is illustrated in astonishingly clear photographs which are interspersed in the body of the text. Christine Mitchell Havelock. *The Hellenistic Aesthetic* provides classicists with their first thorough discussion of the aesthetic unity found in Hellenistic art and literature. Fowler examines parallels both in subject matter and in artistic approach among a diverse group of literary genres and artistic forms. In twelve chapters *The Hellenistic Aesthetic* surveys Alexandrian epigrams, pastorals, epics, sculptural groups, mosaics, paintings and jewelry to supply a convincing and frequently unexpected picture of a unified aesthetic vision. Jeffrey Buller, *Classical Outlook*. *The Hellenistic Aesthetic* Barbara Hughes Fowler, 1989. An introduction to the Hellenistic Period c. 323–27 B.C. which saw the unification of the Mediterranean and Central Asia under the Greek culture and language. The author explores a range of subjects including poetry and literature, science, religion and art. **A Companion to Ancient Aesthetics** Pierre Destrée, Penelope Murray, 2015-04-28. The first of its kind. *A Companion to Ancient Aesthetics* presents a synoptic view of the arts which crosses traditional boundaries and explores the aesthetic experience of the ancients across a range of media: oral, aural, visual and literary. Investigates the many ways in which the arts were experienced and conceptualized in the ancient world. Explores the aesthetic experience of the ancients across a range of media, treating literary, oral, aural and visual arts together in a single volume. Presents an integrated perspective on the major themes of ancient aesthetics which challenges traditional demarcations. Raises questions about the similarities and differences between ancient and modern ways of thinking about the place of art in society.

**Hellenistic Aesthetic and the Poetic Composition of Lucretius' *De Rerum Natura*** Yang Wang, 2002. **Art in the Hellenistic World** Andrew Stewart, 2014-10-06. This book offers a new thematic, contextualized and richly illustrated approach to art of the Hellenistic world c. 330–30 B.C. *Different Aesthetics* Annette Gerok-Reiter, Jörg Robert, Matthias Bauer, Anna Pawlak, 2025-05-19. What is art? What does art offer? Why does art move us? The CRC *Different Aesthetics* pursues

these questions In doing so and by directing its attention towards the 2000 year history of European culture and art before the 18th century it aims to transform perspectives within aesthetic discussions This volume introduces the research undertaken by the CRC 1391 It outlines the benefits of concentrating on the pre modern period lays out the subsequent adjustments to analytical tools and methods and presents the resulting consequences for the study of aesthetics The contributions which range from philology and literary studies art history archaeology and musicology to historical science theology and the digital humanities offer concrete examples of this approach **Aesthetic Value in Classical Antiquity**

Rosen,2012-09-06 How do people respond to and evaluate their sensory experiences of the natural and man made world What does it mean to speak of the value of aesthetic phenomena And in evaluating human arts and artifacts what are the criteria for success or failure The sixth in a series exploring ancient values this book investigates from a variety of perspectives aesthetic value in classical antiquity The essays explore not only the evaluative concepts and terms applied to the arts but also the social and cultural ideologies of aesthetic value itself Seventeen chapters range from the life without the Muses to the Sublime and from philosophical views to middle brow and popular aesthetics Aesthetic value in classical antiquity should be of interest to classicists cultural and art historians and philosophers **The Ancient**

**Aesthetics of Deception** Jonas Grethlein,2021-09-16 The concept of mimesis has dominated reflection on the nature and role in Greek literature of representation Jonas Grethlein in his ambitious new book takes this reflection a step further He argues that beyond mimesis there was an important but unacknowledged strand of reflection focused instead on the nuanced idea of *apat* often translated into English as deceit oscillating between notions of deception and aesthetic illusion Many authors from Gorgias and Plato to Philo Plutarch and Clement of Alexandria used this key concept to entwine aesthetics with ethics In creatively exploring the various reconfigurations of *apat* and placing these in their socio historical contexts the book offers a bold new history of ancient aesthetics It also explores the present significance of the aesthetics of deception unlocking the potential of ancient reflection for current debates on the ethical dimension of representation It will appeal to scholars in classics and literary theory alike **Ancient aesthetics** Wladyslaw Tatarkiewicz,2015-08-17 No detailed description available for Ancient aesthetics
