The Hexing:

The Power of Hex Shawn Engel, 2020-10-06 Shawn Engel is the real deal a boss mystic whose influence is great ideas sparkling and power palpable You will not find spellwork explained more accessibly or made more fun by anyone Jerico Mandybur author of Neo Tarot This beautifully illustrated guide introduces new witches to sigils amulets potions and spells that will encourage them to reclaim and use their power as a catalyst for social change In The Power of Hex author Shawn Engel shows young witches how to use their own power in an inclusive way and empowers them to create their own spells with their new knowledge Beginning with the definition of hexing unpacking the ethics and showing how disenfranchised groups have used this type of magic throughout history for protection The Power of Hex leads into modern takes on the practice From there an overview of focusing energy in different rituals leads into four main spell chapters rounding out to a chapter dedicated to building your own spells using aligned ingredients This book sets itself apart because it aims to simplify this powerful type of magic while enforcing morality We don't want to sink to the level of those we are cursing hexing is meant to protect and arm Hex responsibly and effectively Casting the Circle Diane Stein, 2012-10-17 Learn how to create a sacred space and use ritual for empowerment in everyday life with this classic from Diane Stein **The Philosophy of Science** Richard Boyd, Philip Gasper, J. D. Trout, 1991 The more than forty readings in this anthology cover the most important developments of the past six decades charting the rise and decline of logical positivism and the gradual emergence of a new consensus concerning the major issues and theoretical options in the field As an introduction to the philosophy of science it stands out for its scope its coverage of both historical and contemporary developments and its detailed introductions to each area discussed **A Storm of Spells and Hexes (The Hexer and the Telekinetic Book 1)** N. R. Hairston, Tix Anders is the closest thing I have to a boyfriend Even though we've never talked we're still in a relationship So when someone kidnaps him right in front of me I go on the hunt What I find is a madman who wants us both dead because of our spell casting abilities Getting Tix back is just the beginning Now we'll have to join forces to take out a threat more powerful than any I've ever seen My relationship with Tix was always maintained at a distance Now we're in constant contact Can we save what we had before Or do we move forward with something new Will either of us be left standing when this is all over This is an M/M Urban Fantasy book where the two main leads interact daily but never speak until one of them is almost killed This book contains plenty of action magic and spells **Women's Spirituality** Mary Faulkner, 2025-09-12 From the inside scoop on goddesses Amazons and ancient matriarchal societies to feminist theology and pagan rituals Women's Spirituality offers a comprehensive survey of what is happening in women's spirituality today Mary Faulkner also provides a sweeping historical and social overview of women's spiritual experience from the dawn of civilization to present day Goddesses amazons priestesses and Magic the history of early matriarchal societies ecofeminism Pagan and New Age rituals Wiccan Celtic Jewish Christian native peoples and other spiritual traditions Faulkner also highlights the work of well

known writers theologians and academics who have contributed to the field including Barbara Walker Marija Gimbutas Luisah Teish Starhawk Alice Walker Rosemary Ruether Elizabeth Cady Stanton Sallie McFague Mary Daly Judith Plaskow Carol Christ Sue Monk Kidd and many more For the novice adept or the simply curious this book offers both a sweeping history and an inside view of one of the most profound movements and moving religious impulses of today *The Routledge Companion to Philosophy of Science* Stathis Psillos, Martin Curd, 2008-01-31 This indispensable reference source and guide to the major themes debates problems and topics in philosophy of science contains fifty five specially commissioned entries by a leading team of international contributors Organized into four parts it covers historical and philosophical context debates concepts the individual sciences The Companion covers everything students of philosophy of science need to know from empiricism explanation and experiment to causation observation prediction and more and contains many helpful features *The Routledge Companion to Philosophy of Science* Martin Curd, Stathis Psillos, 2013-07-24 The Routledge Companion to Philosophy of Science is an indispensable reference source and guide to the major themes debates problems and topics in philosophy of science It contains sixty two specially commissioned entries by a leading team of international contributors Organized into four parts it covers historical and philosophical context debates concepts the individual sciences The Routledge Companion to Philosophy of Science addresses all of the essential topics that students of philosophy of science need to know from empiricism explanation and experiment to causation observation prediction and more and contains many helpful features including chapters on individual sciences such as biology chemistry physics and psychology further reading and cross referencing at the end of each chapter Expanded and revised throughout this second edition includes new chapters on Conventionalism Social Epistemology Computer Simulation Thought Experiments Pseudoscience Species and Taxonomy and Cosmology *Depth* Michael Strevens, 2011-09-30 What does it mean for scientists to truly understand rather than to merely describe how the world works Michael Strevens proposes a novel theory of scientific explanation and understanding that overhauls and augments the familiar causal approach to explanation What is replaced is the test for explanatorily relevant causal information Strevens discards the usual criterion of counterfactual dependence in favor of a criterion that turns on a process of progressive abstraction away from a fully detailed physical causal story The augmentations include the introduction of a new non causal explanatory relevance relation entanglement and an independent theory of the role of black boxing and functional specification in explanation The abstraction centered notion of difference making leads to a rich causal treatment of many aspects of explanation that have been either ignored or handled inadequately by earlier causal approaches including the explanation of laws and other regularities with particular attention to the explanation of physically contingent high level laws idealization in explanation and probabilistic explanation in deterministic systems as in statistical physics evolutionary biology and medicine The result is an account of explanation that has especially significant consequences for the higher level sciences biology psychology economics and other social sciences **A Court of Spells and Hexes (The Hexer**
