Campus Violence Leighton Whitaker, Jeffrey Pollard, 2014-02-04 This timely book shows how the rapidly increasing phenomenon of violence in the U S is invading college and university campuses. Campus Violence shows what colleges, universities, and other schools can do to deconstruct the violence culture and begin to educate for a better society. The chapters assist educators in determining the nature of both external and internal violence and what to do about it. Readers will benefit from the experiences of many institutions of higher learning as communicated by various outstanding contributors to this book. By becoming sharply aware of the issues and solutions, administrators may engage in better, more realistic long range planning as well as get help for the myriad daily questions and problems inherent to running today's campuses. As a whole, the book is devoted to highlighting important kinds, causes, and cures of violence destructive to living and learning opportunities. The contributors address the full range of issues from conceptualization to practical ways of handling violent behaviors. Section I Addresses the broadest, most far reaching views of campus violence: the conceptualization of campus violence, administration perspectives, the destructive concoction of alcohol and other drugs, and morbidity and the commercial promotion of mindless violence. Section II Addresses specific kinds of violence. Section III Focuses on the most frequent immediate perpetrators, male college students, and how their behavior can be dealt with and improved. Section IV Focuses very specifically on how the college counselor or psychotherapist can be a consultant to staff and faculty in regard to disruptive students. Campus Violence depicts the need to nurture and develop atmospheres for learning, respect, and constructive action, arguably the most pressing topic in education today. Counselors, therapists, security

officers deans and presidents can begin to counter the rapidly increasing phenomenon of violence in American colleges and universities and cultivate a positive leadership atmosphere The implications of the contributing authors reach to the primary and secondary schools in our nation the training grounds for college life and education and provoke some questions which begin to create a better learning environment

Resources in Education,1990-10 **Recruitment and Retention of Race Group Students in American Higher Education** C. Dwayne Wilson,Bernard Lubin,Barbara Below,2008-01-30 Challenges to American college and university affirmative action and racial and ethnic diversity initiatives were resolved by the Supreme Court in its 2003 decisions in the University of Michigan case Those decisions affirmed as a compelling interest the attainment of racially diverse student bodies in higher education The Court s decisions and the predicted increases over the next decade in the numbers of race and ethnic group high school graduates have reinforced and in some cases strengthened the resolve of college and university officials that the positive returns from affirmative action and racial diversity are real and worth pursuing The purpose of this annotated bibliography is to provide a record of the research scholarship and programs for recruitment and retention of African American Alaskan Native American Indian Asian American Latino and Pacific Islander students at the college and university levels It is structured to facilitate access by college and university administrators professionals consultants researchers and students who require information on recruitment and retention to aid in their decision making about strategy related issues and scientific and creative

The Retreat from Race Dana Y. Takagi, 1992 An excellent book Takagi takes a very complex and sensitive subject racial politics and shows through a careful analysis that changes in the discourse about Asian American admissions have facilitated a retreat from race in the area of affirmative action This book will appeal to an audience significantly wider than a typical academic one

David Karen Bryn Mawr College Charges by Asian Americans that the top universities in the United States used quotas to limit the enrollment of Asian American students developed into one of the most controversial public controversies in higher education since the Bakke case

In Retreat from Race Dana Takagi follows the debates over Asian American admissions at Berkeley UCLA Brown Stanford Harvard and Princeton She explains important developments in the politics of race changes in ethnic coalitions reconstruction of the debate over affirmative action and the conservative challenge to the civil rights agenda of the 1960s Takagi examines the history and significance of the Asian American admissions controversy on American race relations both inside and outside higher education Takagi's central argument is that the Asian American admissions controversy facilitated a subtle but important shift in affirmative action policy away from racial preferences toward class preferences She calls this development a retreat from race Takagi suggests that the retreat signals not only an actual policy shift but also the increasing reluctance on the part of intellectuals politicians and policy analysts to identify and address social problems as explicitly racial problems

Moving beyond the university setting Takagi explores the political significance of the retreat from race by linking Asian American admissions to other controversies in higher education and in American politics including the debates over political correctness and multiculturalism

In her assessment the retreat from race is likely to fail at its promise of easing racial tension and promoting racial equality

Racism Albert J. Wheeler, 2000 Of all mankind's vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature providing access by subject groupings as well as author and subject indexes
