Quercetani, Mel Watman, 1999 **The Athlete and Their Mechanisms of Defense** Tom Ferraro, 2024-08-01 This important book explores the way athletes use defense mechanisms and coping skills to manage both the internal and external stress faced in competitive sport Covering a range of case studies across various sports the text showcases a taxonomy of immature neurotic and mature defences available to the athlete and describes the benefits and drawbacks of each A clear introductory section defines what defense mechanisms are and how they impact performance such as shame anxiety despair memories of previous losses or fantasies about winning Applying a psychoanalytic approach in line with the ideas of Sigmund Freud Anna Freud Fenichel Leo Rangel George Valliant and many others the author uses each case study to connect the defense mechanism under investigation with the world of the athlete Focused on delivering research based evidence the book helps readers deepen their understanding of the different types of defense mechanisms used by athletes across the globe as the author explains what causes them and recommends techniques for developing effective coping skills Each chapter of the book also includes a reflective section that challenges the reader to think about how they can help athletes to grow and develop healthy defense mechanisms in any stage of their career This invaluable text is geared towards the practitioners researchers psychoanalysts and students in sport psychology who wish to look more deeply into why athletes struggle It is also an ideal resource for athletes interested in understanding ways to cope with the unrelenting exciting and at times overwhelming pressure of competitive sports **Redefining Sports Media** Jason Kido Lopez, 2023-05-29 This book argues that the examination of sports media within cultural and media studies is organized around more than just a shared topic mediated sports What count as sports media in journals books and conferences are extremely diverse they can cover athlete expression on social media shoe commercials gender in sports commentary Indigenous name change activists and fantasy sports Besides being mediated and in some cases loosely connected to sports events and leagues it is hard to see what they all share that could serve as the foundation for a unified field of study Jason Kido Lopez argues that sports media are defined by genre which is reflected in their industries within their content and by their audiences Throughout the media and cultural complex sports and sports media are built on the genre of live and real competition and therefore to study sports media is to study that genre Each chapter will explore how the genre is constructed in commodification of mediated sport representation within sports media athlete expression sports fandom and gaming around sports This book will be of interest to those studying sports media as well as media and cultural studies but also can be used as an introductory survey of the research on sports media from a media and cultural studies perspective **Media, Women, and the Transformation of Sport** Pamela J.
