The Man in the Iron Lung Mark O'Brien, 1997-06-01 **How I Became a Human Being** Mark O'Brien, 2003-04-17 In September 1955 six year old Mark O'Brien moved his arms and legs for the last time He came out of a coma to find himself enclosed from the neck down in an iron lung the machine in which he would live for much of the rest of his life For the first time in paperback *How I Became a Human Being* is O'Brien's account of his struggles to lead an independent life despite a lifelong disability In 1955 he contracted polio and became permanently paralyzed from the neck down O'Brien describes growing up without the use of his limbs his adolescence struggling with physical rehabilitation and suffering the bureaucracy of hospitals and institutions and his adult life as an independent student and writer Despite his physical limitations O'Brien crafts a narrative that is as rich and vivid as the life he led The Oxford Handbook of Disability History Michael Rembis, Catherine J. Kudlick, Kim Nielsen, 2018-06-19 Disability history exists outside of the institutions healers and treatments it often brings to mind It is a history where disabled people live not just as patients or cure seekers but rather as people living differently in the world and it is also a history that helps define the fundamental concepts of identity community citizenship and normality *The Oxford Handbook of Disability History* is the first volume of its kind to represent this history and its global scale from ancient Greece to British West Africa The twenty seven articles written by thirty experts from across the field capture the diversity and liveliness of this emerging scholarship Whether discussing disability in modern Chinese cinema or on the American antebellum stage this collection provides new and valuable insights into the rich and varied lives of disabled people across time and place **Talking the Walk & Walking the Talk** Marc Shell, 2015-09-01 This book argues that we should regard walking and talking in a single rhythmic vision In doing so it contributes to the theory of prosody our understanding of respiration and looking and in sum to the particular links across the board between the human characteristics of bipedal walking and meaningful talk The author first introduces the philosophical neurological anthropological and aesthetic aspects of the subject in historical perspective then focuses on rhetoric and introduces a tension between the small and large issues of rhythm He thereupon turns his attention to the roles of breathing in poetry as a life and death matter with attention to beats and walking poems This opens onto technical concepts from the classical traditions of rhetoric and philology Turning to the relationship between prosody and motion he considers both animals and human beings as both ostensibly able bodied creatures and presumptively disabled ones Finally he looks at dancing and writing as aspects of walking and talking with special attention to motion in Arabic and Chinese calligraphy The final chapters of the book provide a series of interrelated representative case studies **Shakespeare: the Poet, the Lover, the Actor, the Man** Henry Curling, 1848 **Shakespeare: the Poet, the Lover, the Actor, the Man** Henry Curling, 1849 The Poets and Poetry of America Rufus Wilmot Griswold, 1856 **Neurocinema—The Sequel** Eelco F. M. Wijdicks, 2022-04-21 The history of neurology as seen through the lens of the filmmaker is fascinating and extraordinary

Neurocinema The Sequel is a review of the history of neurology as seen in film starting with the early days of cinema and concluding with contemporary films now available in theaters and on streaming sites The major themes of this book encompass how neurology has been represented in the history of cinema and how neurologic topics emerged and then disappeared with some staging a comeback in more recent films 180 films are assessed and rated and many of these are exemplary depictions of neurological disorders The author examines whether film from a neurologic perspective can provide insight and even debate Each of the films discussed in this book demands serious attention by those who see and manage neurologic patients and support their families Neurocinema The Sequel chronicles this archive of neurologic representation drawing readers in a rich collection of cinematic wonders of permanent cultural and historical value **The Complete**
