Children's Book Review Index , 1985 **Thread of the Spider** Robert R. Irvine, 2013-06-01 That car belonged to a pair of bank robbers Their names were Knute and Nora and they were almost as famous as Bonnie and Clyde during the Depression They got killed in the Green River Massacre but the car was never found There s more Nick said This paper is dated more than a year before the Japanese attacked Pearl And there s a handwritten notation at the bottom If need be we must allow the Japanese to strike the first blow in order to unite the American people for the coming war initialed FDR

Nicolette Scott and her father are both archaeologists but with differences Professor Elliot Scott lives and breathes very early Americans like the Anasazi His digs are in the southwest where the ancient peoples lived To him his daughter Nicky's area of concern is not to be taken seriously Nicky goes for the culture embodied by artifacts from the twentieth century a crashed plane from either world war is enough to send her senses tingling So when she discovers a 1937 Packard convertible hidden in a sealed cave in the Utah desert she is ecstatic It's only when she begins to read through the papers hidden under a seat cushion that the thrill turns to something very like a chill If those papers are genuine they represent a huge find for Nick But they also represent one of the most scandalous secrets in our country's history Authentic or fake they are still important to someone as Nick learns when invisible threats start closing in culminating in a murderous meeting under the blazing Utah sun This is Nicolette's most suspenseful dig and one that will keep readers gasping and pages turning There Is A Season Patrick Lane, 2005-02-25 Believed by many to be one of the finest poets of his generation Patrick Lane is also a passionate gardener He lives on Vancouver Island a place of uncommon beauty where the climate is mild the air is soft and the growing season lasts nearly all year long Lane has gardened for as long as he can remember and sees his garden's life as intertwined with his own And when he gave up drinking after years of addiction he found solace and healing in tending to his yard In this exquisitely written memoir he relates stories of his hard early life in the context of the landscape he's created As he observes the seasonal changes a plant or a bird or the way a tree bends in the wind brings to mind an episode from his storied past Lane writes evocative descriptions of the animals birds insects and plants that are his garden and of the relationship he has to them all Accompany Lane as he wanders his garden where botanical madeleines release in him a flood of memory *Common Things with Common Eyes* Barney Hoskyns, 1997 House Spiders - Worldwide Wolfgang Nentwig, Jutta Ansorg, Paula E. Cushing, Yvonne Kranz-Baltensperger, Christian Kropf, 2025-01-03 To avoid any misunderstandings this book is not about spiders as pets but about those spiders that live in our houses and apartments as lodgers Mostly ignored and sometimes wrongly feared there is hardly a building in the world that does not harbour some species of spider What is fascinating is that we always find the same species These spiders must have special adaptations because the humidity in our homes is far too low they are too clean and the food supply is usually scarce However those spiders that have made the leap into our four walls are rewarded with a worldwide right to stay This in turn is due to people's eagerness to trade and migrate worldwide Humans tirelessly transport their belongings and an endless stream of goods around the world in sacks parcels and containers And our domestic spiders as stowaways travel just as tirelessly and unrecognized It is therefore possible to present domestic spiders found throughout the world in a single book as they are essentially the same everywhere The 50 or so most important species and species groups are presented here in a generally understandable way with a detailed profile photos and distribution maps The authors of this book are experts who work at museums universities and in administration in Europe and North America They are not only recognized scientists but have

also been avowed spider fans for decades *Garden Insects of North America* Whitney Cranshaw, David Shetlar, 2017-12-05
