responsibility of boycotting British products They were instrumental in organizing non consumption movements refusing to buy tea textiles and other goods produced by the British This grassroots action became one of the most powerful forms of protest disrupting British trade and strengthening colonial resistance Women also began to weave their own clothing substituting British textiles with homemade goods which further solidified their role as key players in the economic resistance

**Why Women Rebel** Alexis Henshaw,2016-12-08 Why Women Rebel presents a global analysis of the extent to which women are engaged in armed organized rebellions and why they choose to join such rebellions Henshaw has collected and analyzed data on women s participation in over 70 post Cold War rebel groups The book provides a theoretical analysis drawing upon both mainstream literature in the social sciences and critical feminist inquiry on women and political violence to offer a new gendered theory on why women rebel The book reveals that women are active in over half of all rebel groups sampled and that while the majority of rebel groups have women serving in support roles away from direct combat approximately a third of these groups employ women in the conduct of armed attacks and just over a quarter have women in a leadership capacity Henshaw reaffirms the idea that women are more likely to be engaged in left wing political organizations but does suggest that more conservative or traditional movements may also successfully incorporate women by appealing to concerns about community rights Addressing several gaps in the current literature on this topic this book will be

of interest to academics in the fields of political science international relations security studies and gender and women s studies
