**H.G. Wells and the Twenty-First Century** Bill Cooke,2023-09-15 H G Wells has been branded as a novelist who betrayed his vocation But Wells saw himself as what we would today call a public intellectual How credible is this claim And what happens when we look at him in this way So typecast has Wells s reputation become that neither of these questions has been previously asked but when we look at Wells as a thinker we find a whole new quality to his later works which have invariably been dismissed by literary scholars as of low quality or even not worth reading In particular Wells s prescience as a prophet of our current environmental problems stands out for example he foresaw anthropogenic climate change as early as 1931 Popular conceptions of Wells as racist imperialist and eugenicist are also challenged What emerges is a new perspective on a significant public intellectual and pioneering prophet of the twenty first century     The Prophet of Berkeley Square Robert Hichens,2022-12-07

interest in Islam in our times the Qur'an is also being read increasingly especially by the intellectuals Muslims and non Muslims alike. However and although its message and central theme have been stated in unambiguous terms its translation fails to impart the same meaning with the same effect. Additionally the Qur'an deals with every subject of human concern and gives guidelines for application to life and society. This increases its scope widely and requires on the part of the reader's knowledge of various disciplines for proper appreciation of its message. It is specially important to know how the Qur'an was understood by those who received it first Prophet Muhammad SAW on whom be Allah's peace and his immediate followers. Second in order of interest and importance would be to know how the scholars of Islam have understood it in every age.
