### **Spiraling Jfm 23:**

**The Fluid Dynamic Basis for Actuator Disc and Rotor Theories** Gijs van Kuik, 2022-06-27 The first rotor performance predictions were published by Joukowski exactly 100 years ago Although a century of research has expanded the knowledge of rotor aerodynamics enormously and modern computer power and measurement techniques now enable detailed analyses that were previously out of reach the concepts proposed by Froude Betz Joukowski and Glauert for modelling a rotor in performance calculations are still in use today albeit with modifications and expansions This book is the result of the author's curiosity as to whether a return to these models with a combination of mathematics dedicated computations and wind tunnel experiments could yield more physical insight and answer some of the old questions still waiting to be resolved Although most of the work included here has been published previously the book connects the various topics linking them in a coherent storyline The Fluid Dynamic Basis for Actuator Disc and Rotor Theories was first published in 2018 This Revised Second Edition 2022 will be of interest to those working in all branches of rotor aerodynamics wind turbines propellers ship screws and helicopter rotors It has been written for proficient students and researchers and reading it will demand a good knowledge of inviscid fluid mechanics **Canadiana**, 1982 Magnetic Resonance Angiography G. Schneider, M.R. Prince, J.F.M. Meaney, V.B. Ho, 2006-05-28 The advent of contrast enhanced MRA in the early to mid 1990s revolutionized the clinical approach to vascular imaging an accurate non invasive imaging modality not requiring ionizing radiation or potentially nephrotoxic iodinated contrast media was able to compete with the more hazardous and invasive catheter angiography Today MRA is a safe easy to perform procedure routinely used in most imaging centers and the continued development of faster more powerful magnets and more effective contrast agents is increasingly helping to overcome many of the early limitations of the technique Subdivided into three sections technique indications and practical applications and written by internationally renowned experts in the field this volume stands out in the current literature on MRA by providing detailed information on sequence parameters for different magnets and vascular territories for the optimization of the MRA technique a broad overview of the principal indications for which contrast enhanced MR angiography is ideally suited the typical MR imaging findings associated with various pathologies the appropriateness of contrast enhanced MRA as compared with other modalities such as CTA and CEUS the potential pitfalls and limitations of the technique in clinical routine The volume will prove invaluable to radiologists and clinicians wishing to expand improve or consolidate their routine approach to vascular MR imaging *Imaging and Assessing Mobile Technology for Development* Richard Musabe, John Sören Pettersson, 2024-04-08 Imaging and assessing mobile technology for development M4D means understanding the use of appropriate technologies and services and how they directly or indirectly address socio economic challenges This book adopts various perspectives to identify the obstacles to affordable digital technologies in order to enable enhance and effect development The book plays on the tension between success reports and optimistic projections on

one hand and empirical evidence of technological belly splash on the other hand The areas covered include infusion of service education in computing education the Rwandan establishment of African Centres of Excellence to promote the development of appropriate technology the metaverse s realisation in a mobile network enabled metaversity and difficulties detected when evaluating digitisation of distance learning students security awareness dissemination of agricultural information and mobile payment The decolonisation of community based media and attempts to step outside the mobile network and Internet are also covered      *Contemporary Authors* CONTEMPORARY.,1981      **Physics Briefs** ,1987
