Spirit In Jung:

The Spirit in Man, Art and Literature C.G. Jung, 2024-11-01 The Spirit in Man Art and Literature offers unique and penetrating insights into the lives and opinions of some of the most significant players in the cultural life of the twentieth century Carl Gustav Jung was at the heart of that cultural life pioneering along with Freud a new interpretation of what it meant to be human in the modern age This volume reveals the full range of Jung s involvement in this process from his famous analysis of Psychology and Literature to his landmark texts on Joyce s Ulysses and Picasso s paintings Jung writes of Freud from the perspective of one who was permitted a deep glimpse into the mind of this remarkable man and through the memories and opinions recorded in The Spirit in Man Art and Literature the reader is offered a similar privilege **The Darkening Spirit** David Tacey, 2013-06-26 The twenty first century could well be Jung s century just as the twentieth century was Freud s Jung predicted the demise of secular humanism and claimed we would search for alternatives to science atheism and reason We would experience a new and even unfashionable appetite for the sacred Educated people however would not return to unreconstructed religions because these do not express the life of the spirit as discerned by modern consciousness The sacred has developed a darker hue and worshipping symbols of light and goodness no longer satisfies the longings of the soul The new sacred cannot be contained by the formulas of the past but nor can we live without a sense of the sacred We stand in a difficult place between traditional religions we have outgrown and a pervasive materialism we can no longer embrace These changes in our culture have come sooner than Jung might have imagined In his time Jung struck many as eccentric or unscientific But his works speak to our time since we have experienced the full gamut of Jungian transformations the unsettling of Judeo Christian culture the rise of the feminine the onslaught of the dark side the critique of modernism and positivism and the recognition that the Western ego is neither the pinnacle of evolution nor the lord of creation A new life is needed beyond the ego but we do not yet know what it will look like The outbreak of strong religion and terrorism are signs of the times but these are expressions of a distorted and repressed spirit and not one hopes genuine pointers to the future What the future holds is uncertain but Jung s prophetic vision helps to prepare us for what is to come and this will be of great interest to analytical psychologists and psychoanalysts as well as to theologians futurists sociologists and the general reader Jung's Map of the Soul Murray Stein, 1998 More than a mere overview the book offers readers a strong grounding in the basic principles of Jung s analytical psychology in addition to illuminating insights Religion and the Cure of Souls In Jung's Psychology Hans Schaer, 2013-07-04 Routledge is now re issuing this prestigious series of 204 volumes originally published between 1910 and 1965 The titles include works by key figures such as C G Jung Sigmund Freud Jean Piaget Otto Rank James Hillman Erich Fromm Karen Horney and Susan Isaacs Each volume is available on its own as part of a themed mini set or as part of a specially priced 204 volume set A brochure listing each title in the International Library of Psychology series is available upon request **Religion and the Spiritual in Carl Jung** Ann

Knapp, 2017-02-03 Psychology as the Discipline of Interiority is the first collection of essays dedicated to the study and application of Psychology as the Discipline of Interiority a new wave within Analytical Psychology which pushes off from the work of C G Jung and James Hillman The book reflects upon the notion of psychology developed by German psychoanalyst Wolfgang Giegerich whose Hegelian turn sheds light on the notion of soul or psyche and its inner logic and thought forming a radical new basis from which to ground a modern psychology with soul The book's theme the psychological difference is applied to topics including analytical theory clinical practice and contemporary issues ranging from C G Jung's *Mysterium* to case studies to the nuclear bomb and the Shoah Psychology as the Discipline of Interiority expounds upon the complexity depth and innovativeness of Giegerich's thought reflecting the various ways in which international scholars have creatively explored a speculative

psychology founded upon the notion of soul The contributors here include clinical psychologists Jungian analysts and international scholars With a new chapter by Wolfgang Giegerich and a foreword by David Miller Psychology as the Discipline of Interiority will be essential reading for depth and clinical psychologists Jungian psychoanalysts in practice and in training and academics and students of post Jungian studies It is also relevant reading for all those interested in the history of philosophical thought and what it means to think in the highly sophisticated and technological world of the twenty first century
