Masaryk,1990-06-18 A presentation of the work of the first President of Czechoslovakia who changed the course of history and influenced developments in Central Europe The selections of his work follow his dramatic career and show him as a philosopher and a politician who inspired practical work and thinking **The Spirit of Thomas G. Masaryk (1850-1937)** Tomáš Garrigue Masaryk,George J. Kovtun,1990 **Spirit of Thomas G. Masaryk (1850?1937)** George J. Kovtun,1990 *Recalling Masaryk's The Czech Question* ,2023-02-13 This book presents T G Masaryk s efforts to shape the identity of a small nation in late the 19th and early 20th century It features contributions from leading Czech scholars who analyse Masaryk s efforts 120 years later Masaryk is considered the most important figure in modern Czech history Drawing on the ideas of his ideological predecessors and humanists he wanted to integrate the Czech nation into the family of advanced world nations in line with international intellectual trends Masaryk was the first in world history to fulfil the Platonic ideal of a philosopher who founded a state **The United States in the First World War** Anne Cipriano Venzon,2013-12-02 First Published in 1999 Includes six maps **World War I and the Birth of a New World Order** Ioan Bolovan,Oana Mihaela Tămaş,2020-02-26 This volume will serve to enrich the reader s understanding of the impact of World War I on Eastern Europe by bringing together authors from all over Europe specialising in the history of this area It presents a retrospective approach and a re evaluation of this event the lasting effects of which still make themselves felt in some regions today Case studies memoirs journals and the printed press of the time are all examined in order to paint a vivid picture of the Great War in Eastern Europe and particularly in Romania The chapters offer fresh perspectives on topics connected to the war including the contribution of women and the emancipation opportunities for them the social changes that occurred and the propaganda in Romanian territory They also review the League of Nations and the protection of international minorities particularly in those regions where new boundaries were created and where the application of national self determination still left substantial communities outside the frontiers of the respective states

Jan Hus Jan Blahoslav Lášek,Angelo Shaun Franklin,2022-05-05 The Bohemian reformer Jan Hus made a substantial and critical contribution to the development of the medieval church owing especially to his views and teachings on Scripture the church faith conscience and spirituality This book offers a presentation of Hus s theological commitment centered on his understanding of truth L ek and Franklin explore Hus s preaching ministry and his long drawn out legal struggle against charges of heresy as ethical outworkings of this approach to truth Central to this exploration is a new annotated translation of Hus s Appeal to Jesus Christ as the Supreme Judge against the pope and canon law This document was not only a protest against papal power but expressed a fundamentally new legal situation in bypassing canon law it essentially represented a personal claim to freedom of conscience This unheard of principle from within the medieval legal framework preceded other related ecclesiastical and legal developments by several centuries The authors argue that Hus s appeal thus represents a

momentous event in church history and European history as a whole Due to the historical significance of his martyrdom and commemoration by many churches throughout Europe this book demonstrates that Hus remains an important figure not only for the study of European history but also for understanding contemporary values of Western civilization

Defining the Sovereign Community Nadya Nedelsky, 2012-02-28 Though they shared a state for most of the twentieth century when the Czechs and Slovaks split in 1993 they founded their new states on different definitions of sovereignty The Czech Constitution employs a civic model founding the state in the name of the citizens of the Czech Republic while the Slovak Constitution uses the more exclusive ethnic model and speaks in the voice of the Slovak Nation Defining the Sovereign Community asks two central questions First why did the two states define sovereignty so differently Second what impact have these choices had on individual and minority rights and participation in the two states Nadya Nedelsky examines how the Czechs and Slovaks understood nationhood over the course of a century and a half and finds that their views have been remarkably resilient over time These enduring perspectives on nationhood shaped how the two states defined sovereignty after the Velvet Revolution which in turn strongly affected the status of the Hungarian minority in Slovakia and the Roma minority in the Czech Republic Neither state has secured civic equality but the nature of the discrimination against minorities differs Using the civic definition of sovereignty offers stronger support for civil and minority rights than an ethnic model does Nedelsky's conclusions challenge much analysis of the region which tends to explain ethnic politics by focusing on postcommunist factors especially the role of opportunistic political leaders Defining the Sovereign Community instead examines the undervalued historical roots of political culture and the role of current constitutional definitions of sovereignty Looking ahead Nedelsky offers crucial evidence that nationalism may remain strong in Slovakia and the Czech Republic even in the face of democratization and EU integration and is an important threat to both

Europe Lonnie Johnson, 1996-10-31 Throughout the Cold War era the Iron Curtain divided Central Europe into a Communist East and a democratic West and we grew accustomed to looking at this part of the world in bipolar ideological terms Yet many people living on both sides of the Iron Curtain considered themselves Central Europeans and the idea of Central Europe was one of the driving forces behind the revolutionary year of 1989 as well as the deterioration of Yugoslavia and its ensuing wars Central Europe provides a broad overview and comparative analysis of key events in a historical region that encompasses contemporary Germany Poland the Czech Republic Slovakia Austria Hungary Slovenia and Croatia Starting with the initial conversion of the pagan peoples of the region to Christianity around 1000 A D and concluding with the revolutions of 1989 and the problems of post Communist states today it illuminates the distinctive nature and peculiarities of the historical development of this region as a cohesive whole Lonnie R Johnson introduces readers to Central Europe s heritage of diversity the interplay of its cultures and the origins of its malicious ethnic and national conflicts History in Central Europe he shows has been epic and tragic Throughout the ages small nations struggled valiantly against a series of imperial powers Ottoman Turkey Habsburg Austria imperial Germany czarist Russia Nazi Germany and the Soviet Union and they lost regularly Johnson s account is present minded in the best sense in describing actual historical events he illustrates the ways they have been remembered and how they contribute to the national assumptions that still drive European politics today Indeed the constant interplay of reality and myth the processes of myth making and remembrance animates much of this history Since the fall of the Iron Curtain in 1989 the unanticipated problems of transforming post Communist states into democracies with market economies the wars in the former Yugoslavia and the challenges of European integration have all made Central Europe the most dynamic and troubled region in Europe In Central Europe Johnson combines a vivid and panoramic narrative of events a nuanced analysis of social economic and political developments and a thoughtful portrait of those myths and memories that have lives of their own and consequences for all of Europe **A Companion to**

Crane, Sylvia Crane, 1991 This groundbreaking work presents a revisionist history of Czechoslovakia's struggle for independence from 1917 to the death of Jan Masaryk in March 1948 The authors focus on three critical events in Czechoslovak history the year of its founding in the midst of the Bolshevik Revolution in 1918 the Munich betrayal in 1938 and the Communist coup of 1948 The account is informed by John Crane's longstanding personal acquaintance with the Masaryk family and by Sylvia Crane's extensive research into previously inaccessible original archival sources The Cranes argue that throughout the period in question Czechoslovakia was victimized by the rival Great Powers as they attempted to

forge their own separate spheres of influence in Europe Among their startling new findings is their assessment that Jan Masaryk their brother in law committed suicide on March 10 1948 correcting the Cold War myth that claims he was murdered The book begins with an examination of the early years of the Czechoslovakian independence movement during World War I Among the Cranes most notable discoveries are documents until recently classified by the British Foreign Office that demonstrate how Great Britain used the Czechoslovak Legions in Bolshevik Russia to fight the Soviets contrary to President Thomas Masaryk s desires and the arrangements he had made for their withdrawal The next set of chapters addresses the events leading up to Munich 1938 and demonstrates the various roles played by the Great Powers in the ultimate betrayal of Czechoslovakia to Hitler Finally the Cranes turn their attention to the immediate post World War II period They argue that American policies based on strong anti Soviet attitudes were a major contributing factor in the defeat of democratic forces within Czechoslovakia by hardline Communists Throughout the Cranes rely on both their extensive research into primary sources and their intimate knowledge of the Masaryk family to offer the reader an unusually revealing account of the critical events in Czechoslovakia s turbulent history Must reading for Cold War historians this book will also be of significant interest to students of European politics particularly in light of the recent events in Eastern Europe
