**Bill Reid** Maria Tippet,2003 Part biography part art history a thoroughly engaging look at one man s life and his phenomenal influence on the world of contemporary art Bill Reid was at the forefront of the modern day renaissance of Northwest Coast Native art but his art and his life was not without controversy Like the raven the trickster and principal figure in countless Haida myths Bill Reid reinvented himself several times over Born to a partly Haida mother and a father of German and Scottish descent his public persona as a Haida Indian seems to have been as much a product of journalists art patrons museum curators and others in the non Native establishment as of Bill Reid himself It is clear that Reid s art arose from the tension that existed between his Native and white artistic perceptions Award winning biographer and cultural historian Maria Tippet became intrigued by this enigmatic figure who referred to his own early works as artefakes yet to this day continues to inspire new generations of Northwest Coast artists including Robert Davidson and Jim Hart But she questions whether Reid s status as the architect of contemporary Native art is fair and accurate given that artists such as Mungo Martin had been keeping the tradition alive since the beginning of the twentieth century Most controversially she explores how Reid brought a sensibility formed through his white heritage to the reinvention of Native art By asking difficult questions about Reid s life and work and by analyzing the works of other Native artists since the beginning of the twentieth century Tippet gives the reader the defining portrait of Bill Reid one of Canada s most enigmatic and beloved artists Bill Reid s work can be found in private and public art galleries and museums all over the world The Museum of Anthropology at the University of British Columbia houses the famous The Raven and The First Men and many smaller masterworks The Spirit of Haida Gwaii a monumental bronze sculpture over four metres high is on display at the Canadian Embassy in Washington D C The British Museum the Musee de l Homme in Paris and the Canadian Museum of Civilization in Ottawa also hold impressive examples of the work of this extraordinary and imaginative artist

**A Sense of Place** Robin Laurence,2015-09-19 A spectacular overview of one of the most highly acclaimed art collections on the West Coast which greets travelers at Vancouver International Airport YVR as they journey between land sea and sky The airport which is known for its modern design and expansive topography offers an impressive visual display of award winning art and architecture Each terminal building represents the culture heritage natural beauty and iconic experiences that embody British Columbia and the artwork exhibited throughout plays an integral role in telling those stories Revered in particular for its focus on Pacific Coast Native art the collection is presented in the thematic groupings of land sea and sky three realms that intersect at YVR In A Sense of Place art historian and critic Robin Laurence will examine the commissioning of dozens of striking artworks as a response to the airport s overall architectural and design plan and particularly as a reflection of the cultural heritage and natural

environment identified with the province of British Columbia Among the highlights of the collection are monumental sculptures by leading Northwest Coast First Nations artists including Susan A Point Coast Salish Robert Davidson Haida Dempsey Bob Tahltan Tlingit Richard Hunt Kwakwaka wakw Lyle Wilson Haisla Joe David Nuuchah nulth Connie Watts Nuuchah nulth Kwakwaka wakw and Gitksan and the late Bill Reid famed for The Spirit of Haida Gwaii The Jade Canoe Their art both welcomes and bids farewell to the millions of travellers who make their way through YVR each year

Eco-Deconstruction Philippe Lynes, David Wood, 2018-03-27 Eco Deconstruction marks a new approach to the degradation of the natural environment including habitat loss species extinction and climate change While the work of French philosopher Jacques Derrida 1930 2004 with its relentless interrogation of the anthropocentric metaphysics of presence has already proven highly influential in posthumanism and animal studies the present volume drawing on published and unpublished work by Derrida and others builds on these insights to address the most pressing environmental issues of our time The volume brings together fifteen prominent scholars from a wide variety of related fields including eco phenomenology eco hermeneutics new materialism posthumanism animal studies vegetal philosophy science and technology studies environmental humanities eco criticism earth art and aesthetics and analytic environmental ethics Overall eco deconstruction offers an account of differential relationality explored in a non totalizable ecological context that addresses our times in both an ontological and a normative register The book is divided into four sections Diagnosing the Present suggests that our times are marked by a facile flattened out understanding of time and thus in need of deconstructive dispositions Ecologies mobilizes the spectral ontology of deconstruction to argue for an originary environmentality the constitutive ecological embeddedness of mortal life Nuclear and Other Biodegradabilities examines remains including such by products and disintegrations of human culture as nuclear waste environmental destruction and species extinctions Environmental Ethics seeks to uncover a demand for justice including human responsibility for suffering beings that emerges precisely as a response to original differentiation and the mortality and unmasterable alterity it installs in living beings As such the book will resonate with readers not only of philosophy but across the humanities and the social and natural sciences

Wittgenstein and the Study of Politics Michael Temelini, 2015-01-01 In Wittgenstein and the Study of Politics Michael Temelini outlines an innovative new approach to understanding the political implications of Wittgenstein's philosophy Most political philosophers who have approached Wittgenstein have done so through the idea of therapeutic skepticism implying politics that privilege conservatism or non interference Temelini interprets Wittgenstein differently emphasizing his view that we come to understand the meanings of words and actions through a dialogue of comparison with other cases Examining the work of Charles Taylor Quentin Skinner and James Tully Temelini highlights the ways in which all three despite their differences share a common debt to that dialogical approach A cogent explanation of how Wittgenstein's epistemology and ontology can shed light on political issues and offer a solution to political challenges Wittgenstein and the Study of Politics highlights the importance of Wittgensteinian thinking in contemporary political science political theory and political philosophy
