## **Spirit Of Place Bce Place:**

Spirits of the Place John Clifford Holt, 2009-07-29 Spirits of the Place is a rare and timely contribution to our understanding of religious culture in Laos and Southeast Asia Most often studied as a part of Thai Vietnamese or Khmer history Laos remains a terra incognita to most Westerners and to many of the people living throughout Asia as well John Holt s new book brings this fascinating nation into focus With its overview of Lao Buddhism and analysis of how shifting political power from royalty to democracy to communism has impacted Lao religious culture the book offers an integrated account of the entwined political and religious history of Laos from the fourteenth century to the contemporary era Holt advances the provocative argument that common Lao knowledge of important aspects of Theravada Buddhist thought and practice has been heavily conditioned by an indigenous religious culture dominated by the veneration of phi spirits whose powers are thought to prevail over and within specific social and geographical domains The enduring influence of traditional spirit cults in Lao culture and society has brought about major changes in how the figure of the Buddha and the powers associated with Buddhist temples and reliquaries indeed how all ritual spaces and times have been understood by the Lao Despite vigorous attempts by Buddhist royalty French rationalists and most recently by communist ideologues to eliminate the worship of phi spirit cults have not been displaced they continue to persist and show no signs of abating Not only have the spirits resisted eradication but they have withstood synthesis subordination and transformation by Buddhist political and ecclesiastical powers Rather than reduce Buddhist religious culture to a set of simple commonalities Holt takes a comparative approach using his nearly thirty years experience with Sri Lanka to elucidate what is unique about Lao Buddhism This stimulating book invites students in the fields of the history of religion and Buddhist and Southeast Asian studies to take a fresh look at prevailing assumptions and perhaps reconsider the place of Buddhism in Laos and Southeast Asia The Mystery of Human Relationship Nathan Schwartz-Salant, 2003-09-02 All human relationships are containers of emotional life but what are the structures underlying them Nathan Schwartz Salant looks at all kinds of relationships through an analyst s eye By analogy with the ancient system of alchemy he shows how states of mind that can undermine our relationships in marriage in creative work in the workplace can become transformative when brought to consciousness It is only by learning how to access the interactive field of our relationships that we can enter this transformative process and explore its mysterious potential for self realization **Asian Sacred Natural Sites** Bas Verschuuren, Naoya Furuta, 2016-08-12 Nature conservation planning tends to be driven by models based on Western norms and science but these may not represent the cultural philosophical and religious contexts of much of Asia This book provides a new perspective on the topic of sacred natural sites and cultural heritage by linking Asian cultures religions and worldviews with contemporary conservation practices and approaches The chapters focus on the modern significance of sacred natural sites in Asian protected areas with reference where appropriate to an Asian philosophy of protected areas Drawn from over 20 different countries the book covers examples of sacred natural

sites from all of IUCN's protected area categories and governance types. The authors demonstrate the challenges faced to maintain culture and support spiritual and religious governance and management structures in the face of strong modernisation across Asia. The book shows how sacred natural sites contribute to defining new more sustainable and more equitable forms of protected areas and conservation that reflect the worldviews and beliefs of their respective cultures and religions. The book contributes to a paradigm shift in conservation and protected areas as it advocates for greater recognition of culture and spirituality through the adoption of biocultural conservation approaches.

Spaces for the Sacred Philip Shelldrake, 2001-01-31 In *Spaces for the Sacred* Philip Shelldrake brilliantly reveals the connection between our rootedness in the places we inhabit and the construction of our personal and religious identities. Based on the prestigious Hulsean Lectures he delivered at the University of Cambridge, Shelldrake's book examines the sacred narratives which derive from both overtly religious sites such as cathedrals and secular ones like the Millennium Dome and it suggests how Christian theological and spiritual traditions may contribute creatively to current debates about place.

Geographical Thoughts in India Rana Singh, 2009-05-27 This book deals with roots of Indian geographical thoughts with reference to its historical base, cultural context and visionary message. As a consequence of long cultural history, the resultant lifeworld in India converges like a drama and dance of space-time function with transference and transformation. In the passage of time, emerged a metaphysical frame of thought, the varieties of heritagescapes and simultaneously grown the senses to heritage ecology. Of course, attempts have been scanty but the richness always portrayed in literature and literary geography. Historical and cultural geographies in India have not caught that much attention in the academia; however, on micro level, distinct attributes are interpreted in the recent literature. Going back to the ancient notions of nature theology, religiouscapes and rituals have developed a complex network of belief systems in the Hindu traditions. In these traditions, the motherly river Ganga serves as symbol, system and metaphor in the Indian culture. Continuity of cultural manifestations is actively maintained and continued in the Indian villages where lives three-fourths of India's population and serve like a place ballet. India's catastrophic march on the road of development and technology is entangled with obstacles and socio-spatial gaps that need to be re-considered in the light of cultural background and historical legacy. All these issues are examined emphasising dualistic and complimentary perspectives in the West and the East.

*Gods, Spirits, and Worship in the Greco-Roman World and Early Christianity* Craig A. Evans, Adam Z. Wright, 2022-02-24 Greco Roman religions and superstitions and early Christianity's engagement with them are explored in 12 unique studies The beliefs and fears with regard to demons or daimons their origins and threatening behavior are examined both in their pagan and Judaeo Christian contexts These new studies look at the Greco Roman heroic gods how they faced death and how James and John the sons of Thunder may well have been viewed in some circles as the equivalent of

the sons of Zeus Castor and Pollux The contributors also explore Roman omens especially as they relate to Rome's legendary founder Romulus and what light they shed on the omens that accompany the birth and death of Jesus of Nazareth Particular focus is placed upon Paul binding spells women and hymns of exaltation along with atheism in late antiquity with special consideration of the charlatan Alexander Finally there is a re-visitation of the confusion misinformation and legends surrounding the discovery of the Qumran caves including fear of jinn This book provides invaluable resources for precisely how early Christians interacted with different ideas and traditions around gods and spirits both benevolent and malevolent in the Greco-Roman world     *An encyclopaedia of civil engineering, historical, theoretical and* Edward Cresy, 1847     The Origin of Evil Spirits Archie T. Betcher, 2013-11-11 Drawing on philosophical reflection spiritual and religious values and somatic practice *Spirit and the Obligation of Social Flesh* offers guidance for moving amidst the affective dynamics that animate the streets of the global cities now amassing around our planet Here theology turns decidedly secular In urban medieval Europe seculars were uncloistered persons who carried their spiritual passion and sense of an obligated life into daily circumambulations of the city Seculars lived in the city on behalf of the city but contrary to the new profit economy of the time with a different locus of value spirit Betcher argues that for seculars today the possibility of a devoted life the practice of felicity in history still remains Spirit now names a necessary prosthesis a locus for regenerating the elemental commons of our interdependent flesh and thus for cultivating spacious and fearless empathy forbearance and generosity Her theological poetics though based in Christianity are frequently in conversation with other religions resident in our postcolonial cities     *Mary Magdalene* Bruce Chilton, 2006-11-21 After two thousand years of flawed history here at last is a magnificent new biography of Mary Magdalene that draws her out of the shadows of history and restores her to her rightful place of importance in Christianity Throughout history Mary Magdalene has been both revered and reviled a woman who has taken on many forms witch whore the incarnation of the eternal feminine the devoted companion and perhaps even the wife of Jesus In this brilliant new biography Bruce Chilton a renowned biblical scholar offers the first complete and authoritative portrait of this fascinating woman Through groundbreaking

interpretations of ancient texts Chilton shows that Mary played a central role in Jesus ministry and was a seminal figure in the creation of Christianity Chilton s descriptions of who Mary Magdalene was and what she did challenge the male dominated history of Christianity familiar to most readers Placing Mary within the traditions of Jewish female savants Chilton presents a visionary figure who was fully immersed in the mystical practices that shaped Jesus own teachings and a woman who was a religious master in her own right **The Place of God at the Bookends of the Bible** David W.

Larsen,2023-10-09 What if everything in the Bible has a larger outer context than is usually accounted for Missional and biblical theologies suggest that the Bible presents a grand story like a play with multiple acts The acts typically include creation fall redemption and finally restoration But what if the whole story itself occurs in another larger setting occurring within a mission running in the background throughout the whole Bible How might this aid our research reading and application And why is this being proposed now This book explores these questions The larger context is the production of the place of God a home and homeland wherein God with his people dwell on earth Since place is underdeveloped in biblical studies the book presents a new method for interpreting place Then the book lays out the case that a grand mission to produce the place of God becomes the outer context for the whole Bible Finally the book defends this proposal with an in depth placial commentary of the bookends of the Bible since these bookends provide keys to unlock this message thereby inviting further study on the rest of the Bible and on the implications for this transformative perspective

**Conceptualizing Friendship in Time and Place** Carla Risseuw,Marlein van Raalte,2017-07-31 The concept of friendship is more easily valued than it is described this volume brings together reflections on its meaning and practice in a variety of social and cultural settings in history and in the present time focusing on Asia and the Western Euro American world The extension of the group in which friendship is recognized and degrees of intimacy whether or not involving an erotic dimension and genuine appreciation may vary widely Friendship may simply include kinship bonds solidarity being one of its more general characteristics In various contexts of travelling migration and a dearth of offspring friendship may take over roles of kinship also in terms of care
