Mobile Africa Rijk van Dijk, Dick Foeken, Mirjam de Bruijn, 2021-07-26 This anthology deals with the complexity variety and experience of all the forms of mobility we witness today in Sub Saharan Africa Three sets of issues are being discussed First the concept of mobility itself is considered and how it is conceived of in distinction from sedentarity Second which forms of mobility can be distinguished not only from the perspective of Western social sciences but also from the perspective of people s own experiences ideas notions etc Social science in Africa has particularly focused on rural urban migration but it is clear that there are many other forms as well Third the concept of mobility concerns not only geographical space but there are other spaces to consider as well In addition to forms of mobility there is a mobility of forms in which the perception of those other spaces plays a crucial role In short the book intends to turn the whole notion of mobility as a supposedly rupturing phenomenon on its head emphasizing that rather through travelling connections are established and continuity is experienced We are challenged to delve into the traveller s mind to think and follow their multi spatial livelihoods and to explore what it means to people if they move in a variety of spaces Journal of Religion in Africa ,1997 *The Spirit-seekers* Robert W.
