Science of Spirit Robert Donald Tonelli, 2011-01-17 Beyond the Secret Beyond the Power of Now is the Science of Spirit a Deeper look at life Why are we here alive on planet earth trapped in a life of 9 to 5 wage slavery Science of Spirit Lost Keys to the Kingdom of Heaven on Earth shows that all life on planet earth and in the universe is based on an evolution of consciousness from the beginning of time the Big Bang It clarifies the connectedness of all life with Science and to Spirit through the understanding of world old Hermetic Teachings in a balance of Reason and Faith Consciousness is the very fabric that all form is made out of and is the ground of all beingness of life Consciousness and the energy that makes up matter are inextricably combined or linked emerging in a sequence of events called occasions of experience that ultimately create our experiences in life and our reality The universe isn't made of things or particles It's a process It's made up of events The result of this evolution of consciousness is an Analogical Awareness of life living in the now moment of unlimited potentials for the growth of a new super conscious species of humanity moving through an Omega Point in time between 2011-2013 These Hermetic Teachings were clarified for me through the teaching of Ramtha and his Ancient Gnostic School much of what I have learned in 20 years my philosophy of life has its foundation in Ramtha's philosophy Our accelerating consciousness is moving to a quantum existence of Spirit in Mass God Man realized alive with all the lower species of life specifically the Sheeple of Economic Western Society The Science of Spirit is based on my personal experience my research and my understanding of the ancient philosophy that this work comes from It uses from research the philosophy

and experience of other very credible people that have studied different aspects of a Science of Spirit as a philosophy to live by I use this eclectic approach to build an accurate model of reality based in consciousness that allows us to create our own reality once we rid ourselves of the illusions of society This approach gives credibility to my overall viewpoint a modern interpretation of a very old philosophy and way of life A Science of Spirit that is inherent in Mother Nature It goes in depth about understanding What Consciousness Is An Analogical State of Awareness that is continuously evolving faster and faster to the eternal Now Moment It uses the discovery of a new perspective of the Mayan Calendar that is supposed to end in a religious Apocalypse at The Omega Point in time around 2012 as its foundational understanding of an Evolution of Consciousness on earth This philosophy and research show an Evolution of Consciousness a rising of an Analogical Awareness of life revealing a Science to the nature of Spirit It explains from a new perspective this battle between the Forces of Good and Evil at The End of Time This Ancient Science of Spirit philosophy explains how the primeval forces of life Spirit that are inherent in Mother Earth growing for 16 4 billion years are pitted against the dogmatic stagnant god fearing personalities that runs the Engines of Commerce of our Global Society with their focus on monetary control of the people and the planet This is a real life battle between evolving evolutionary beings against the Anti Christ Social Consciousness of The Multi National Corporations Religious dogmas talk about an Apocalypse at the end of time to help warn us of our impending doom the remarkable thing is that the word Apocalypse means the lifting of a veil or a disclosure to certain privileged persons of something hidden from the majority of humankind I will show in this book that the lifting of a veil is a rising of consciousness that knows no fear of the unknown and clarifies ancient predictions of the end days and the real battle of Armageddon This ancient Science Subject Guide to Books in Print ,1997 *Encyclopedia of Religion and Nature* Bron Taylor,2008-06-10 The Encyclopedia of Religion and Nature originally published in 2005 is a landmark work in the burgeoning field of religion and nature It covers a vast and interdisciplinary range of material from thinkers to religious traditions and beyond with clarity and style Widely praised by reviewers and the recipient of two reference work awards since its publication see www.religionandnature.com ern this new more affordable version is a must have book for anyone interested in the manifold and fascinating links between religion and nature in all their many senses *Keats, Hermeticism, and the Secret Societies* Jennifer N. Wunder,2016-04-22 Jennifer Wunder makes a strong case for the importance of hermeticism and the secret societies to an understanding of John Keats s poetry and his speculations about religious and philosophical questions Although secret societies exercised enormous cultural influence during the late eighteenth and early nineteenth centuries they have received little attention from Romantic scholars And yet information about the societies permeated all aspects of Romantic culture Groups such as the Rosicrucians and the Freemasons fascinated the reading public and the market was flooded with articles pamphlets and books that discussed the societies s goals and hermetic philosophies debated their influence and drew on their mythologies for literary inspiration Wunder recovers the common

knowledge about the societies and offers readers a first look at the role they played in the writings of Romantic authors in general and Keats in particular. She argues that Keats was aware of the information available about the secret societies and employed hermetic terminology and imagery associated with these groups throughout his career. As she traces the influence of these secret societies on Keats's poetry and letters, she offers readers a new perspective not only on Keats's writings but also on scholarship treating his religious and philosophical beliefs. While scholars have tended either to consider Keats's aesthetic and religious speculations on their own terms or to adopt a more historical approach that rejects an emphasis on the spiritual for a materialist interpretation, Wunder offers us a middle way. Restoring Keats to a milieu characterized by simultaneously worldly and mythological propensities, she helps to explain if not fully reconcile the insights of both camps.

Garden of Bliss Debra Moffitt, 2013. *Garden of Bliss* begins on the French Riviera where Moffitt, despite her glamorous European lifestyle, feels empty. Realizing that financial success doesn't necessarily equate to happiness, she looks inside herself and decides to make some changes. The message of her journey is simple: bliss is a destination that exists within all of us. Using the metaphor of a secret garden, Moffitt encourages her readers to manifest this space in the physical world and connect with the divine feminine through nature. *The Heritage of Hermes* Alexandra Lember, Alexandra

Lember-Heidenreich, 2004. **The Path of Alchemy** Mark Stavish, 2025-08-05. Alchemy offers tremendous insight into alternative therapies, new medicines, and the depths of the human mind. Illuminating a truly esoteric practice, Mark Stavish reveals how to create and apply medicines for the soul in this remarkable guide to plant and mineral alchemy. *The Path of Alchemy* introduces the history and basic laws of this ancient practice and explains how it ties into Qabala, tarot, astrology, and the four elements. Safe, modern techniques based on spagyrics, plant alchemy for producing distillations, stones, tinctures, and elixirs are given along with their uses in physical healing, spiritual growth, psychic experiments, initiation, consecration, spellwork, and more. Each chapter includes meditations, projects, and suggested reading as aids to inner transformation, an equally important aspect of alchemy. Tools, rituals, lunar and solar stones, and the elusive Philosopher's Stone are all covered in this comprehensive guide to alchemy. Finalist for the Coalition of Visionary Resources Award for Best Magick/Shamanism Book. *Hermeticism: A Note on the Philosophical School* Pons Malleus, 2025-07-11. In an era where the search for meaning has become as fragmented as the digital age itself, the ancient wisdom of Hermeticism offers a coherent and profoundly integrated worldview, one that bridges the spiritual with the material, the mystical with the rational, and the personal with the cosmic. This book is an invitation to enter the timeless stream of Hermetic philosophy to explore its roots, principles, and enduring relevance in a modern world often estranged from mystery and transcendence. Hermeticism is not merely a historical curiosity or a footnote in the annals of Western esotericism; it is a living tradition, a philosophical and spiritual path that has shaped and echoed through the teachings of alchemists, Renaissance magi, Neoplatonists, and even contemporary seekers of truth. At its heart lies a set of core principles famously distilled in texts like the *Corpus Hermeticum* and *The*

Kybalion which articulate a vision of the universe as a unified conscious whole governed by universal laws These principles mentalism correspondence vibration polarity rhythm cause and effect and gender present not a rigid dogma but a metaphysical framework for understanding the hidden architecture of reality This book does not aim to reduce Hermeticism to a set of formulas or to present it as a system to be passively accepted Rather it seeks to engage the reader in a dialogue with a tradition that has always prized direct knowledge gnosis and personal transformation The Hermetic path is one of inner alchemy of transmuting base consciousness into spiritual gold It calls upon the individual to become both philosopher and practitioner both questioner and mystic Historically Hermeticism emerged in the syncretic crucible of Hellenistic Egypt where Greek Egyptian and early Christian ideas coalesced into a rich spiritual synthesis The legendary figure of Hermes Trismegistus part Greek god part Egyptian sage and wholly symbolic of the union of wisdom traditions became the imagined author of a body of teachings concerned with divine knowledge cosmic order and human destiny Though modern scholarship may dissect the textual origins and historical contexts of Hermetic writings the deeper significance of this tradition remains in its ability to speak to perennial questions What is the nature of the universe What is the purpose of life How can we come to know the divine This book is structured to guide both newcomers and seasoned readers through the essential themes of Hermetic thought It will trace the historical development of Hermeticism examine its central philosophical concepts and explore its influence across disciplines alchemy magic psychology and metaphysics More importantly it will encourage the reader to reflect on how these teachings can be interpreted and lived today In an age dominated by materialism and uncertainty the Hermetic vision reintroduces the sacred the symbolic and the interconnectedness of all things To study Hermeticism is to embark on a journey not just through time and text but through the depths of the self and the fabric of the cosmos It asks us to see beyond appearances to recognize the divine spark within and to awaken to a universe where nothing is truly separate In the words of the Emerald Tablet As above so below as within so without May this book serve as a companion on your journey not as a final answer but as a lantern in the labyrinth illuminating paths of thought and spirit that have guided seekers for centuries and continue to whisper their truths to those who listen with both reason and reverence
