Russian Baptists and Spiritual Revolution, 1905-1929 Heather J. Coleman, 2005-04-20 a fascinating read for everyone interested in Russia, religion, and modernity. Nadia Kizenko. In the early 20th century, Baptists were the fastest growing non-Orthodox religious group among Russians and Ukrainians. Heather J. Coleman traces the development of Baptist evangelical communities through a period of rapid industrialization, war, and revolution when Russians found themselves asking new questions about religion and its place in modern life. Baptists' faith helped them navigate the problems of dissent, order, and disorder of modernization and westernization and of national and social identity in their changing society. Making use of newly available archival material, this important book reveals the ways in which the Baptists' own experiences and the widespread discussions that they generated illuminate the emergence of new social and personal identities in late Imperial and early Soviet Russia, the creation of a public sphere and a civic culture, and the role of religious ideas in the modernization process.

The Spirituality Revolution David John Tacey, 2004. The Spirituality Revolution addresses the major social issue of spirituality, which requires immediate attention if we are to creatively respond to spiralling outbreaks of depression, suicide, addiction, and psychological suffering.

Spiritual Revolution in the East Walter Freytag, 1937 **The Seeking Heart** Ian Mobsby, 2025-01-28 In the contemporary church, the word mission has become synonymous with pace, expansion, and results. Yet such an approach can often leave those with responsibilities in mission or ministry feeling exhausted and overwhelmed. Not only that, but mission which focuses on the rapid and the growing fails to recognize the rich resources the more contemplative Christian traditions can offer our post-secular society, and especially those who would call themselves spiritual but not religious.

Spiritual Revolution: a Seeker's Guide Michael Goddard, 1997 **Martyrs, Monks, and Mystics** McClymond, Michael J., 2023 This book offers a wide angle and yet integrative approach to Christian spirituality, engaging diverse historical traditions, incorporating recent

developments in Asian Africa Latin America and in global Pentecostalism while displaying an essential unity in this topic in relation to a number of salient themes e g love humility prayer servanthood etc The book is geared toward students in college courses It should also be of particular interest to practicing Christians across a very broad spectrum of traditions and denominations and engages secular Jewish and Muslim readers as well as those practicing one of the traditional Asian religions

Changes in Religious and Spiritual Practices in Western Society Dr. Anthony B. Atwam (PhD),2025-01-22 Adopting an interdisciplinary approach between the sociology of religion and practical theology this book examines the dynamic changes in religious and spiritual practices in the West from the 1960s From this examination the book demonstrates that westerners are becoming spiritually hungry and there is also a general thirst for righteousness When people demand faithfulness and loyalty in marriages relationships and at the workplace that is a thirst for righteousness Furthermore these changes are also leading to a paradigm shift in the West in religion and spirituality contexts we are moving from the Christian Age to a new era which some scholars claim to be the New Age In politics there is a potential shift in world dominance from the West to the East however there is some notable resistance from some quarters in America but Europe including Britain theologically seems to be following and championing events leading to its own demise In the context of world missions the centre of world Christianity is shifting from the West to the global south Africa in particular There is also a potential societal apocalypse despite our scientific endeavours and finally cosmologically the coming of God s kingdom is imminent The context in which these changes are occurring is the West Therefore this book is a great resource for policy makers students tutors Pastors the Church and people in Western nations The West is a mission field therefore this book is also a great resource for students institutions tutors missionaries and people in the global south Thus the discussion in the book contributes to our understanding of what is going on globally in the twenty first century Read this book to find out how these dynamic events affect you your family and society

Rationality, Humility, and Spirituality in Christian Life Dennis Hiebert,2020-02-27 As Euro American culture turns resolutely away from religiosity toward spirituality and becomes increasingly post Christian the ordinary everyday practice of Christian life is ever more questioned and in need of scrutiny In this interdisciplinary analysis Christians are first called to comprehend the excessive rationality that modernity has built into both the cognitive and organizational structure of contemporary Christian life They are then summoned to personify an authentic attitude of humility and in particular the virtue of intellectual humility that is most challenged and tested by religious convictions Going forward Christians are subsequently invited to live their faith more as an internally differentiated and open spirituality rather than an externally determined and regulated religiosity When we exhaust our rationality and are confronted with its limitations we are humbled by our finitude and animated by our spirituality

Return of the Revolutionaries Walter Semkiw,2025-09-12 Two hundred and twenty five years ago a political revolution took place in this country which swept power from the English monarchy and gave it to the people of the New World Today a spiritual

revolution is underway in which spiritual power and responsibility are passing from institution to individuals You ll be shocked to learn that the same people are at the heart of both world changing movements John Adams Thomas Paine Samuel Adams the justices of the first Supreme Court and numerous other American Revolutionaries have been reincarnated as the political and spiritual leaders of today including George W Bush Bill Clinton Al Gore Marianne Williamson Shirley MacLaine and others Semkiw presents ample evidence that physical appearance character traits modes of thinking and expression as well as family and karmic groups often stay the same from lifetime to lifetime He s also included photographs demonstrating the startling physical similarities the individuals of the American Revolution share with today s revolutionaries As further support of the basic premise and reality of reincarnation Semkiw has included Dr Ian Stevenson s groundbreaking findings of children who report past lives as well as other case studies of individuals who have researched and written on their own past lives Discusses new research into using DNA to prove reincarnation Find out how physical appearance character traits synchronistic events karmic groups and spiritual guidance can be used to detect one s past lives Includes numerous black white photographs dramatically illustrating the similar physical appearance of revolutionaries past and present **A**

Sociology of Spirituality Kieran Flanagan, Peter C. Jupp, 2007-01-01 The emergence of spirituality in contemporary culture in holistic forms suggests that organised religions have failed This thesis is explored and disputed in this book in ways that mark important critical divisions This is the first collection of essays to assess the significance of spirituality in the sociology of religion The authors explore the relationship of spirituality to the visual individualism gender identity politics education and cultural capital The relationship between secularisation and spirituality is examined and consideration is given to the significance of Simmel in relation to a sociology of spirituality Problems of defining spirituality are debated with reference to its expression in the UK the USA France and Holland This timely original and well structured volume provides undergraduates postgraduates and researchers with a scholarly appraisal of a phenomenon that can only increase in sociological significance **French Literary Fascism** David Carroll, 1998-07-21 Focusing first on three important extremist nationalist writers at the turn of the century and then on five of the most visible fascist intellectuals in France in the 1930s David Carroll shows how both traditional and modern concepts of art figure in the elaboration of fascist ideology and in the presentation of fascism as an art of the political **The Re-Enchantment of the West, Vol 2** Christopher

Partridge, 2006-06-20 Challenging some assessments of religion in the West this study argues that although much organized religion particularly Christianity is in numerical decline in actual fact we are witnessing an alternative spiritual re enchantment of society and culture **Gender and Power in Contemporary Spirituality** Anna Fedele, Kim Knibbe, 2013-03-05 This book explores the entanglements of gender and power in spiritual practices and analyzes strategies used by spiritual practitioners to attain what to social scientists might seem an impossible goal creating spiritual communities without creating gendered hierarchies What strategies do people within these networks use to attain gender

equality and gendered empowerment How do they try to protect and develop individual freedom How do gender and power nevertheless play a role The chapters in this book together and separately demonstrate that in order to understand contemporary spirituality the analytical lenses of gender and power are essential Furthermore they show that it is not possible to make a clear distinction between established religions and contemporary spirituality the two sometimes overlap and at other times spirituality distances itself from religion while reproducing some of its underlying interpretative frameworks This book does not take the discourses of spiritual practitioners for granted yet recognizes the reflexivity of spiritual practitioners and the reciprocal relationship between spirituality and disciplines such as anthropology The ethnographic descriptions of lived spirituality included in this volume span a wide range of countries from Portugal Italy and the Netherlands to Mexico and Israel

Triumph of the Spirit Lionel D. Lyles, Essie Thibodeaux-Lyles, 2000-12 One of the most formidable tasks that an individual faces today is to learn this simple truth That is life is a journey of self realization Getting thoughts create barriers that prohibit understanding An affected person is unconsciously misled to believe that the only reality that exists is the one experienced by the five senses As such spirituality is reduced to a mechanical affair where the soul is bound and heaven is perceived as being a distant place that is unexperienceable until after death The message contained in this book illuminates the idea heaven is a choice and it can be experienced NOW To claim this miracle for self it is necessary to re work the thoughts in the mind Those that create what is not wanted must be let go and as a mother bear protects her cub one must guard the thoughts allowed into the mind Taking personal responsibility is at the heart of this self work This personal revolution is a process Any courageous enough to claim it can expect to create the following intimate social relationships responsive political systems schools that teach children Who They Are and loving families

Counting Religion in Britain, 1970-2020 Clive D. Field, 2021-12-09 Counting Religion in Britain 1970 2020 the fourth volume in the author s chronological history of British secularization sheds significant new light on the nature scale and timing of religious change in Britain during the past half century with particular reference to quantitative sources Adopting a key performance indicators approach twenty one facets of personal religious belonging behaving and believing are examined offering a much wider range of lenses through which the health of religion can be viewed and appraised than most contemporary scholarship Summative analysis of these indicators by means of a secularization dashboard leads to a reaffirmation of the validity of secularization in its descriptive sense as the dominant narrative and direction of travel since 1970 while acknowledging that it is an incomplete process and without endorsing all aspects of the paradigmatic expression of secularization as a by product of modernization

A New Old Spirituality? Tone Stangeland Kaufman, 2017-07-11 How do pastors live their spiritual lives both as private persons and as professionals How can their spirituality be characterized and understood Drawing on in depth interviews with Norwegian clergy as well as literature from the fields of Christian spirituality practical theology congregational studies and the sociology of religion this book offers a nuanced understanding of clergy spirituality Tone

Stangeland Kaufman identifies three locations and sources of spiritual nurture for pastors the ministry itself vocational spirituality daily life everyday spirituality and spiritual practices located at the margins of daily life intentional spirituality The participants in this study engage in classic Christian practices yet approach them in a subjective and new way that also potentially revitalizes their spiritual lives Hence the author makes the case that their spirituality can aptly be described as a new old spirituality The book also seeks to nuance Paul Heelas's and Linda Woodhead's Spiritual Revolution claim and thus engages in the broader spirituality vs religion discourse A New Old Spirituality is an exciting example of how qualitative empirical research can be used in creative ways to make a practical theological argument It is a book for scholars students and practitioners

God's Quest Lyman C.D. Kulathungam, 2019-12-09 Why bother with God when he is viewed as a sacred superstition a discarded non entity or a pretext for religious wars Jews and Christians have doubted and discarded God at many times throughout the ages and have also justified countless conflicts in his name Their history however tells a different story Here we observe the historical reality of God's relentless quest to relate with people whether Jew or gentile Despite significant differences between these communities this is the DNA that binds them and places them in a paradigm different from the one articulated in The Quest Christ Amidst the Quest where people are seeking to be freed from their predicament The Judeo Christian narrative shows God's incessant quest orchestrated through various channels such as scriptural revelation miraculous interventions covenantal commitments divine presence in the tabernacle or the temple God's sacrificial incarnation in Christ and the advent of the anticipated Jewish Messiah The narrative climaxes in a grand finale when humans and their habitat will be ushered into an age of peace and harmony Journeying through such a narrative will provide assurance that God is walking with you amidst life's turmoil and that the best is yet to be

USA and Racial Divide Margaret Gray Robinson, 2019-05-23 USA and Racial Divide Lord Heal Me and Heal Our Land addresses racism from the perspective of a sixty three year old African American Christian woman who has struggled with her ability to experience the love of God because of her contradictory reality The book though controversial will benefit all readers because it exposes the true culprit of division whether in races homes families nations or our world Attention is given to the role of the Body of Christ church in this sinister attack of the enemy and how we are without excuse in continuing justifying its acceptance in our society It cannot be done by the marches of the 1960s but by a spiritual revolution hearts must change were the words that were given in answer to a prayer about racism in our nation Understanding God's original plan for mankind male and female understanding who God is and who man is understanding human behavior exploring historical facts about our nation and African descendants recognizing the true enemy of division understanding that racism is the symptom of a greater spiritual problem that cannot be handled by natural means are all covered in this book The author reminds the Body of Christ of its role in perpetuating racism and the need for repentance so we can be the light of the world that we are called to be We have been given the ministry of reconciliation however we remain powerless if we behave as the world Although many are

saved there is a need for spiritual maturity otherwise we remain babes in Christ and behave just like the world Who his own self bare our sins in his own body on the tree that we being dead to sins should live unto righteousness by whose stripes ye were healed 1Pe 2 24
