

Saint John of the Cross, a Christian Mystic

Topic: Religion | Words: 498 | Pages: 2

Juan de Yepes, who later adopted the name "de la Cruz" (John of the Cross), is a Christian mystic, Catholic saint, writer, poet, reformer of the Carmelite order, and teacher of the Church. It may seem that this person lived in a different world: he found himself in everyday life, especially in the lives of poor people. He enjoyed working as an apprentice with stonemasons who built and refurbished the small monasteries where he lived. He found himself in the life of his monastic order, in which he almost always held the abbot position and was responsible for education. He found himself primarily in the work of spiritual guidance to those who turned to him, asking him to help them love God with all their heart. However, all these actions and events are associated with loneliness and detachment that stem from his worldview. One of John's central ideas is the doctrine of love, which says that all people deserve the same attitude.

One part of this idea is related to the relationship between relatives. John argued that it is necessary to love both close people and strangers equally. There should not be an exceptional love or hate among people. Moreover, family members should be valued even less because the feelings generated by this relationship interfere with a reunion with God. Thus, in John's worldview, each person should become a stranger and devote life to worship. He stated that true love can only be given by God, but knowledge of this is not available to mere mortals. However, John did not support a bad attitude towards others as well: he urged to run away from everyone and achieve solitude. He thought that this is the only way to reach God and become genuinely spiritual.

Christian Mysticism Dr Kevin Magill, Dr Louise Nelstrop, Mr Bradley B Onishi, 2013-06-28 This book introduces students to Christian mysticism and modern critical responses to it Christianity has a rich tradition of mystical theology that first emerged in the writings of the early church fathers and flourished during the Middle Ages Today Christian mysticism is increasingly recognised as an

important Christian heritage relevant to today's spiritual seekers. The book sets out to provide students and other interested readers with access to the main theoretical approaches to Christian mysticism including those propounded by William James, Steven Katz, Bernard McGinn, Michael Sells, Denys Turner, and Caroline Walker Bynum. It also explores postmodern readings of Christian mysticism by authors such as Jacques Derrida, Jean-Luc Marion, and Jean-François Lyotard. The book first introduces students to the main themes that underpin Christian mysticism. It then reflects on how modern critics have understood each of them, demonstrating that stark delineation between the different theoretical approaches eventually collapses under the weight of the complex interaction between experience and knowledge that lies at the heart of Christian mysticism. In doing so, the book presents a deliberate challenge to a strictly perennialist reading of Christian mysticism. Anyone even remotely familiar with Christian mysticism will know that renewed interest in Christian mystical writers has created a huge array of scholarship with which students of mysticism need to familiarise themselves. This book outlines the various modern theoretical approaches in a manner easily accessible to a reader with little or no previous knowledge of this area and offers a philosophical/theological introduction to Christian mystical writers beyond the patristic period important for the Latin Western Tradition.

Crossing Religious Frontiers Harry Oldmeadow, 2010-09-16 How should we view religions that are different from our own? In a world where misunderstandings and disagreements between cultures and faiths are commonplace, this fascinating book, the first in a new series called *Studies in Comparative Religion*, helps us put other faiths in context and addresses the problem of encountering conflicting religious forms. Featuring 23 fascinating articles from religious scholars and the personal accounts of the remarkable individuals who have lived these encounters first hand.

A New Old Spirituality? Tone Stangeland Kaufman, 2017-07-11 How do pastors live their spiritual lives both as private persons and as professionals? How can their spirituality be characterized and understood? Drawing on in-depth interviews with Norwegian clergy as well as literature from the fields of Christian spirituality, practical theology, congregational studies, and the sociology of religion, this book offers a nuanced understanding of clergy spirituality. Tone Stangeland Kaufman identifies three locations and sources of spiritual nurture for pastors: the ministry itself, vocational spirituality, daily life, everyday spirituality, and spiritual practices located at the margins of daily life. The participants in this study engage in classic Christian practices yet approach them in a subjective and new way that also potentially revitalizes their spiritual lives. Hence, the author makes the case that their spirituality can aptly be described as a new old spirituality. The book also seeks to nuance Paul Heelas's and Linda Woodhead's *Spiritual Revolution* claim and thus engages in the broader spirituality vs. religion discourse. *A New Old Spirituality* is an exciting example of how qualitative empirical research can be used in creative ways to make a practical theological argument. It is a book for scholars, students, and practitioners.

Gender and Medieval Mysticism from India to Europe Alexandra Verini, Abir Bazaz, 2023-09-29 This book opens up a dialogue between pre modern women identified as mystics in diverse locations from South Asia to Europe It considers how women from the disparate religious traditions of Hinduism Islam and Christianity expressed devotion in parallel ways The argument is that women's mysticism demands to be compared not because of any essential female experience of the divine but because the parallel positions of marginalization that pre modern women experienced led them to deploy intimate encounters with the divine to speak publicly and claim authority The topics covered range from the Sufi devotional tradition of Sidis Indians of African ancestry to the Bhakti poet M r ba and the nuns of Barking Abbey Collectively the chapters show how mysticism allowed premodern women to speak and act by unsettling traditional gender roles and expectations for religious behavior At the same time as uncovering connections the juxtaposition of women from different traditions serves to highlight distinctive features The book draws on a range of disciplinary expertise and will be of particular interest to scholars of medieval religion and theology as well as history and literary studies

Apocalypticism and Mysticism in Ancient Judaism and Early Christianity John J. Collins, Pieter G. R. the Greek philosophical tradition Philo and also examines the Christian transformation of Jewish mysticism in Paul and Revelation It provides for a nuanced treatment that differentiates different strands of thought that may be considered mystical The Hebrew tradition is mythical in nature and concerned with various ways of being in the presence of God The Greek tradition allows for a greater degree of unification and participation in the divine The New Testament texts are generally closer to the Greek tradition although Greek philosophy would have a huge effect on later Christian mysticism The book is intended for scholars and advanced students of ancient Judaism and early Christianity *Perspectives on Jewish Thought and Mysticism* Alfred L.
