Spiritual Roots In Human Relations:

Spiritual Roots of Human Relations Stephen R. Covey, 1993 The Spiritual Roots of Restorative Justice Michael L. Hadley, 2001-02-08 This interdisciplinary study explores what major spiritual traditions say in text tradition and current practice about criminal justice in general and Restorative Justice in particular It reflects the close collaboration of scholars and professionals engaged in multifaith reflection on the theory and practice of criminal law A variety of traditions are explored Aboriginal spirituality Buddhism Chinese religions Christianity Hinduism Islam Judaism and Sikhism Drawing on a wide range of literature and experience in the field of Restorative Justice and recognizing the ongoing interdisciplinary research into the complex relationships between religion and violence the contributors clarify how faith based principles of reconciliation restoration and healing might be implemented in pluralistic multicultural societies **The Spiritual Roots of the Ecological Crisis** Jean-Claude Larchet, 2022-03-11 Many Christians are tempted to dismiss concerns over the environment and the catastrophic effects of climate change After all prominent voices who most vociferously warn us about this crisis tend to also advocate a wider worldview antithetical to Christian teachings In this text noted philosopher and scholar Jean Claude Larchet finds the roots of the global ecological crisis in a rejection of a truly Christian cosmology Explaining the relationship between man and nature ordained by God in the beginning Larchet bases the degradation of the creation ultimately in the primordial fall and outlines how we have arrived at the present crisis point Finally the author proposes principles and actions deeply rooted in his Christian ethos that would allow mankind to restore and reinvigorate its relationship with nature **Corporate Spirit** Amanda Porterfield, 2018-03-01 In this groundbreaking work Amanda Porterfield explores the long intertwining of religion and commerce in the history of incorporation in the United States Beginning with the antecedents of that history in western Europe she focuses on organizations to show how corporate strategies in religion and commerce developed symbiotically and how religion has influenced the corporate structuring and commercial orientation of American society Porterfield begins her story in ancient Rome She traces the development of corporate organization through medieval Europe and Elizabethan England and then to colonial North America where organizational practices derived from religion infiltrated commerce and commerce led to political independence Left more to their own devices than under British law religious groups in the United States experienced unprecedented autonomy that facilitated new forms of communal governance and new means of broadcasting their messages As commercial enterprise expanded religious organizations grew apace helping many Americans absorb the shocks of economic turbulence and promoting new conceptions of faith spirit and will power that contributed to business Porterfield highlights the role that American religious institutions played a society increasingly dominated by commercial incorporation and free market ideologies She also shows how charitable impulses long nurtured by religion continued to stimulate reform and demand for accountability **Seeking the Promised Land** David E. Campbell, John C. Green, J. Quin Monson, 2014-09-29 Mormons have

long had an outsized presence in American culture and politics but they remain largely unknown to most Americans Recent years have seen the political prominence of Mormons taken to a new level including the presidential candidacy of Republican Mitt Romney the prominent involvement of Mormons in the campaign for California s Proposition 8 anti gay marriage and the ascendancy of Democrat Harry Reid to the position of Senate Majority Leader This book provides the most thorough examination ever written of Mormons place in the American political landscape what Mormons are like politically and how non Mormons respond to Mormon candidates However this is a book about more than Mormons As a religious subculture in a pluralistic society Mormons are a case study of how a religious group balances distinctiveness and assimilation a question faced by all faiths

Reflections on Communication, Education, Scholarship, and Life Xin-An Lu,2003-07-06 Our actions in education business and government are no longer guided by conscious ideals but by entrenched practices that are products of expediency indolence and even tyranny Inveterate and ubiquitous problems abound Students hate school Employees dislike their jobs Professors become disinclined toward teaching Boredom and procrastination are everywhere There are promotion requirements such as scholarly publications by college professors that promote nothing and benefit none except to move the person into the next nominal category along the spectrum of the organizational ladder We are plagued with senseless competitive patterns and numerical evaluations that make life a mere matter of rat race the winning of which does not uplift us into the sublimity of humanity but trammel us in the degradation of being rats Essays in this book reflect on and search for answers to widespread and inveterate problems that degenerate modern life into mere livelihood Products in sober solitude rather than in the societal cacophony most essays in the book were written during the author s doctoral studies
