 Although told in a largely refashioned manner a number of the following stories are very loosely based upon either time
 honored stories of the mystics or are built around various essential spiritual insights drawn from their teachings Other
 stories appearing in this volume are wholly original but are still rooted in a traditional spiritual perspective In either case the
 names have been changed to protect the innocent and as well considerable poetic license has been taken in the telling and or
 re telling of some of these spiritual tales The author is neither a shaykh nor a guide but he did have the opportunity to serve
 and work closely with an adept of Islamic mysticism and as a result was exposed to a variety of principles values and
 teachings of the Sufi path The stories are being given expression in the present volume because they might have something
