Literary Slumming Eliza Jane Smith, 2021-08-06 Literary Slumming Slang and Class in Nineteenth Century France applies a sociolinguistic approach to the representation of slang in French literature and dictionaries to reveal the ways in which upper class writers lexicographers literary critics and bourgeois readers participated in a sociolinguistic concept the author refers to as literary slumming or the appropriation of lower class and criminal language and culture Through an analysis of spoken and embodied manifestations of the anti language of slang in the works of Eugène François Vidocq Honoré de Balzac Eugène Sue Victor Hugo the Goncourt Brothers and Émile Zola Literary Slumming argues that the nineteenth century French literary discourse on slang led to the emergence of this sociolinguistic phenomenon that prioritized lower class and criminal life and culture in a way that ultimately expanded class boundaries and increased visibility and agency for minorities within the public sphere

tien de Troyes uses repeated references to Spain throughout his romances despite past suggestions that they contain
Mozarabic and Islamic themes and motifs these references have never been commented upon The book will demonstrate that
these allusions to Spain occur at key moments in the romances and are often coupled with linguistic riddles which serve as
roadmaps to the manner in which the romances are to be read These references and riddles seem to support the idea that
some of their themes and motifs in Chr tien s romances are of Andalusí origin The book also analyzes Chr tien s notion of

themes and motifs as well as mystical alchemical symbolism into the standard religious and literary canons of his time The
contrast afforded by Chr tien s use of irony and his subtle integration of this mati re d Orient into the standard canon
constitutes a carefully veiled criticism of the social and moral conduct as well as spiritual beliefs of twelfth century Christian

the fact that it will be the first to comment upon and analyze Chr tien s references to Spain and the rich mati re d Orient in
his romances while suggesting channels for its transmission through scholars merchants and religious houses from northern
