**Splendors of Meiji** Joe Earle, 1999      Splendors of Meiji Robert Steven Bianchi, 1999      Splendors of Imperial Japan Joe Earle, 2002 An exhibition catalogue in full colour of some 350 masterpieces from the Meiji Period Exhibited at the Portland Art Museum Oregon in 2002      **Since Meiji** J. Thomas Rimer, 2011-10-31 Research outside Japan on the history and significance of the Japanese visual arts since the beginning of the Meiji period 1868 has been with the exception of writings on modern and contemporary woodblock prints a relatively unexplored area of inquiry In recent years however the subject has begun to attract wide interest As is evident from this volume this period of roughly a century and a half produced an outpouring of art created in a bewildering number of genres and spanning a wide range of aims and accomplishments Since Meiji is the first sustained effort in English to discuss in any depth a time when Japan eager to join in the larger cultural developments in Europe and the U S went through a visual revolution Indeed this study of the visual arts of the nineteenth and twentieth centuries suggests a fresh history of modern Japanese culture one that until now has not been widely visible or thoroughly analyzed outside that country In this extensive collection which includes some 190 black and white and color reproductions scholars from Japan Europe Australia and America explore an impressive array of subjects painting sculpture prints fashion design crafts and gardens The works discussed range from early Meiji attempts to create art that referenced Western styles to postwar and contemporary avant garde experiments There are in addition substantive investigations of the cultural and intellectual background that helped stimulate the creation of new and shifting art forms including essays on the invention of a modern artistic vocabulary in the Japanese language and the history of art criticism in Japan as well as an extensive account of the career and significance of perhaps the best known Japanese figure concerned with the visual arts of his period Okakura Tenshin 1862 1913 whose Book of Tea is still widely read today Taken together the essays in this volume allow readers to connect ideas and images thus bringing to light larger trends in the Japanese visual arts that have made possible the vitality range and striking achievements created during this turbulent and lively period Contributors Stephen Addiss Chiaki Ajioka John Clark Ellen Conant Mikiko Hirayama Michael Marra Jonathan Reynolds J Thomas Rimer Audrey Yoshiko Seo Eric C Shiner Lawrence Smith Shuji Tanaka Reiko Tomii Mayu Tsuruya Toshio Watanabe Gennifer Weisenfeld Bert Winther Tamaki Emiko Yamanashi      The Art of Peace Sir David Khalili, 2023-11-02 In 1967 Sir David Khalili finished his military service in Iran and travelled to study in the United States with 750 his remaining royalties from a book he wrote when he was just 14 Over the course of the next five decades he single handedly piece by piece assembled eight of the finest art collections in their field ultimately becoming one of the world s greatest collectors about whom Queen Elizabeth II once said It is scary how much this gentleman knows about art For the first time Sir David shares his extraordinary journey one that has taken him through the souks of North Africa the auction houses of Europe and the United States the bazaars of South Asia and far beyond Through a riveting collection of real life adventures he reveals his

collecting strategy business ethics and what motivates him to continuously collect conserve research publish and exhibit the treasures in his collections Through his story Sir David questions how the undeniable power of art can be harnessed to foster greater peace and unity worldwide No one is better placed to enlighten us      **Challenging Past and Present** Ellen P.

Conant,2006-02-28 The complex and coherent development of Japanese art during the course of the nineteenth century was inadvertently disrupted by a political event the Meiji Restoration of 1868 Scholars of both the preceding Edo 1615 1868 and the succeeding Meiji 1868 1912 eras have shunned the decades bordering this arbitrary divide thus creating an art historical void that the former view as a period of waning technical and creative inventiveness and the latter as one threatened by Meiji reforms and indiscriminate westernization and modernization Challenging Past and Present to the contrary demonstrates that the period 1840 1890 as seen progressively rather than retrospectively experienced a dramatic transformation in the visual arts which in turn made possible the creative achievements of the twentieth century The first group of chapters takes as its theme the diverse cultural currents of the transitional period particularly as they applied to art The second section deals with the inconsistent yet determinedly pragmatic courses pursued by artists entrepreneurs and patrons to achieve a secure footing in the uncertain terrain of early Meiji Further chapters look at how painters and sculptors sought to absorb and integrate foreign influences and reinterpret their own stylistic mediums      **Memory and History** Joan

Tumblety,2013-07-15 How does the historian approach memory and how do historians use different sources to analyze how history and memory interact and impact on each other Memory and History explores the different aspects of the study of this field Taking examples from Europe Australia the USA and Japan and treating periods beyond living memory as well as the recent past the volume highlights the contours of the current vogue for memory among historians while demonstrating the diversity and imagination of the field Each chapter looks at a set of key historical and historiographical questions through research based case studies How does engaging with memory as either source or subject help to illuminate the past What are the theoretical ethical and or methodological challenges that are encountered by historians engaging with memory in this way and how might they be managed How can the reading of a particular set of sources illuminate both of these questions The chapters cover a diverse range of approaches and subjects including oral history memorialization and commemoration visual cultures and photography autobiographical fiction material culture ethnic relations the individual and collective memories of war veterans The chapters collectively address a wide range of primary source material beyond oral testimony photography monuments memoir and autobiographical writing fiction art and woodcuttings everyday and exotic cultural artefacts journalism political polemic the law and witness testimony This book will be essential reading for students of history and memory providing an accessible guide to the historical study of memory through a focus on varied source materials      **A**
