The Perspective from Mt. Sinai: The Book of Jubilees and Exodus Betsy Halpern-Amaru,2015-09-16 Although termed the little Genesis the Book of Jubilees is significantly engaged with Exodus It reworks key Exodus narratives develops modules of Exodus law and highlights Exodus motifs The most fundamental connection to Exodus is the grounding of the two narrational structures of Jubilees in the scenario of Moses receiving a revelation on Mt Sinai In the frame an anonymous narrator develops the Mt Sinai setting of the work In the body an angel employs that setting as the present time pivot for a retrospect that moves backward and forward in time Focusing on the intersection of structure and content the study explores the relationship between the retrospective design of the angel narration and the exegesis The approach is a literary one that treats Jubilees as a unitary text that may reflect the work of a single author or of a final editor The analysis draws particular
