Remembering Migration Kate Darian-Smith, Paula Hamilton, 2019-08-10 This book provides the first comprehensive study of diverse migrant memories and what they mean for Australia in the twenty first century Drawing on rich case studies it captures the changing political and cultural dimensions of migration memories as they are negotiated and commemorated by individuals communities and the nation Remembering Migration is divided into two sections the first on oral histories and the second examining the complexity of migrant heritage and the sources and genres of memory writing The focused and thematic analysis in the book explores how these histories are re remembered in private and public spaces including museum exhibitions heritage sites and the media Written by leading and emerging scholars the collected essays explore how memories of global migration across generations contribute to the ever changing social and cultural fabric of Australia and its place in the world **Intimacy and Italian Migration** Loretta Baldassar, Donna R. Gabaccia, 2011 Loretta Baldassar is

Associate Professor of Anthropology and Sociology at the University of Western Australia Migration, Class and Transnational Identities Val Colic-Peisker, 2010-10-01 Val Colic Peisker harnesses concepts and theories from sociology anthropology and political science to compare the vastly different experiences of two Croatian immigrant cohorts in the city of Perth Western Australia The populations explored represent an earlier group of working class migrants arriving from communist Yugoslavia from the 1950s to 1970s and a later group of urban professionals arriving in the 1980s and 1990s as independent or skills based migrants This latter group integrated into professional ranks but also used their Australian experience as a stepping stone in becoming part of a highly mobile global professional middle class Employing a refined theoretical analysis this rich ethnography challenges the domination of the ethnic perspective in migration studies and the idea of ethnic community itself It emphasizes the importance of class focusing on the intersection of class ethnicity and gender in the process of migration migrant incorporation and transnationalism In theorizing the connection of the two migrant cohorts with their native Croatia the study introduces concepts of ethnic and cosmopolitan transnationalism as two distinctive experiences mediated by class **Homeland Wanted** Peter Waxman, Val Colic-Peisker, 2005 Includes statistics and graphs **The Life and Work of Ante Dabro, Australian-Croatian Sculptor** Peter Read, 2023-12-05 Why does a

highly skilled and highly trained sculptor the master of every style and technique insist on working in the style of the Italian Renaissance The answer is that to Dabro every sculpture must speak to humanity which means that it must be an element of humanity If it does not the sculptor has failed Working with female models throughout his long life he has sought to portray an essence of femininity and therefore an essence of humanity Ante Dabro believes that the ability to see what other people don't see is a real gift He says It's like a star wheeling round the earth fertilising the imagination as it goes This book explores the different ways he has liberated an essence of humanity by releasing the soul of a human form from its

imprisoning substance whether it be from wood marble stone or plaster The author one of Australia s best known historians and biographers like Dabro wants our imaginations to soar and rejoice in the creative spirit which has driven his sculptures for more than 60years The International Migration Review ,2005 *Migration In, From, and to Southeastern Europe: Ways and strategies of migrating* Klaus Roth,Jutta Lauth Bacas,2011 This volume is part two of a selection of articles on migration movements in to and from Southeast Europe It aims at a better understanding of the complex migration processes which deeply affect Balkan societies both presently and in the past The articles presented here focus on the ways and strategies of migrants on irregular migration in and to as well as on transit migration through the region while others deal with the effects of return migration on Balkan societies They present empirical findings on migration which are of interest not only for experts on Southeast Europe and on migration processes in general but also for those interested in European integration and in the consequences of EU migration policies **Histories of Fascism and Anti-Fascism in Australia**
