Spoken Chamorro Donald M. Topping, Pedro Ogo, 1969 **Spoken Chamorro** ,1969 **Spoken Chamorro** Donald M. Topping, 1980-06-01 Spoken Chamorro is designed to enable the student to learn to speak and understand the Chamorro language the way native speakers do in their everyday activities This second edition has been revised to incorporate the spelling conventions adopted by the Marianas Orthography Committee in January 1971 and suggestions made by teachers who have used the text in the classroom The basic material in the text remains unchanged the work of the author and Pedro M Ogo principal of Rota Elementary and High School who is a native speaker of the language As much as possible the lessons exclude regionalisms presenting the language as it is heard generally on Guam Saipan Rota and elsewhere throughout the Mariana Islands Woleaian-English Dictionary Ho-min Sohn, Anthony F. Tawerilmang, 2019-03-31 This was the first dictionary compiled for the language spoken on Woleai Atoll in the Caroline Islands The dictionary contains some 6 200 Woleaian entries and an English Woleaian finder list of about 4 000 entries The Woleaian entries are based on an alphabetic system of orthography developed by the authors Each entry also contains where appropriate the following parts loan source alternant forms part of speech or word class grammatical notes definitions phrase examples sentence examples synonyms antonyms and cross references **Mokilese-English Dictionary** Sheldon Harrison, 2019-03-31 This dictionary the first formal compilation of words in Mokilese contains about 5 000 entries with English glosses grammatical information and illustrative sentences for selected entries It was created to fill the need for a dictionary in programs of bilingual education in the schools Mokilese children attend This work will also be of use to anthropologists and linguists specializing in the Pacific **NIH Publication** ,1983 Bibliography of Amyotrophic Lateral Sclerosis and Parkinsonism-dementia of Guam Ralph M. Garruto, 1983 Approximately 600 entries to literature mostly journal articles about Guam the Kii Peninsula of Japan and West New Guinea Also includes as a supplement of additional selected references on history and geography natural environment general anthropology and health and disease in Guam and the Northern Mariana Islands Chronological arrangement of the main section Each entry gives bibliographical information Author index *Morphologies in Contact* Martine Vanhove, Thomas Stolz, Aina Urdze, Hitomi Otsuka, 2012-12-04 This collection of articles takes up the issue of Contact Morphology raised by David Wilkins in 1996 In the majority of contact related studies morphology is at best a marginal topic According to the extant borrowing hierarchies bound morphology is copied only rarely if at all because morphological copies presuppose long term intensive contact with prior massive borrowing of content words and function words On the other hand especially in studies of morphological change contact is often identified as the decisive factor which triggers the disintegration of morphological systems However it remains to be seen whether these two standard treatments of morphology in contact situations exhaust the phenomenology of Contact Morphology The 14 papers of the present volume shed new light on the behavior of morphology under the conditions of language contact Fresh empirical data from 40

languages world wide are presented and new theory based concepts are discussed Morphologies in Contact is a first in the history of both morphology and language contact studies It is meant to mark the beginning of an international research program which explores the entire range of aspects connected to morphologies in contact and thus paves the way for a full blown Contact Morphology qua linguistic discipline

Building a bridge between linguistic communities of the Old and the New World Chiyo Nishida, Cinzia Russi, 2012 The present volume is a collection of fourteen original papers selected from those presented at the first US installment of Chronos International Conference on Tense Aspect Mood and Modality which took place at the University of Texas at Austin in October 2008 The volume serves as an excellent forum for international scholars working on expressions of on tense aspect mood and modality It contains papers dealing with a diverse variety of languages ranging from well studied languages like English French Italian Spanish Russian and Japanese to less known ones like Basque Chamorro Iquito Australian English and Singlish The originality and relevance

of the individual contributions is highlighted by the broadness of the theoretical approaches they employ and the novel empirical data they examine. All the studies go beyond exploring issues strictly related to tense aspect mood and modality rather they cut across all main linguistics subfields such as syntax semantics pragmatics language acquisition and language evolution thus attesting to how research on tense aspect mood and modality is vital to the better understanding of human language in general. A grammar of Papuan Malay Angela Kluge, 2016-07-08. This book presents an in depth linguistic description of one Papuan Malay variety based on sixteen hours of recordings of spontaneous narratives and conversations between Papuan Malay speakers. Papuan Malay refers to the easternmost varieties of Malay Austronesian. They are spoken in the coastal areas of West Papua the western part of the island of New Guinea. The variety described here is spoken along West Papua's northeast coast. Papuan Malay is the language of wider communication and the first or second language for an ever increasing number of people of the area. While Papuan Malay is not officially recognized and therefore not used in formal government or educational settings or for religious preaching it is used in all other domains including unofficial use in formal settings and to some extent in the public media. After a general introduction to the language its setting and history this grammar discusses the following topics: building up from smaller grammatical constituents to larger ones: phonology word formation noun and prepositional phrases verbal and nonverbal clauses non declarative clauses and conjunctions and constituent combining. Of special interest to linguists typologists and Malay specialists are the following: in depth analyses and descriptions: affixation and its productivity across domains of language choice reduplication and its *gesamtbedeutung* personal pronouns and their adnominal uses demonstratives and locatives and their extended uses and adnominal possessive relations and their non canonical uses. This study provides a point of comparison for further studies in other Papuan Malay varieties and a starting point for Papuan Malay language development efforts.
