Contact Languages Sarah G. Thomason, 1997-03-06 This book contributes to a more balanced view of the most dramatic results of language contact by presenting linguistic and historical sketches of lesser known contact languages The twelve case studies offer eloquent testimony against the still common view that all contact languages are pidgins and creoles with

maximally simple and essentially identical grammars They show that some contact languages are neither pidgins nor creoles and that even pidgins and creoles can display considerable structural diversity and structural complexity they also show that two language contact situations can give rise to pidgins especially when access to a target language is withheld by its speakers The chapters are arranged according to language type three focus on pidgins Hiri Motu by Tom Dutton Pidgin Delaware by Ives Goddard and Ndyuka Trio Pidgin by George L Huttar and Frank J Velantie two on creoles Kituba by Salikoko S Mufwene and Sango by Helma Pasch one on a set of pidgins and creoles Arabic based contact languages by Jonathan Owens one on the question of early pidginization and or creolization in Swahili by Derek Nurse and five on bilingual mixed languages Michif by Peter Bakker and Robert A Papen Media Lengua and Callahuaya both by Pieter Muysken and Mednyj Aleut and Ma a both by Sarah Thomason The authors collective goal is to help offset the traditional emphasis within contact language studies on pidgins and creoles that arose as an immediate result of contact with Europeans starting in the Age of Exploration The accumulation of case studies on a wide diversity of languages is needed to create a body of knowledge substantial enough to support robust generalizations about the nature and development of all types of contact language

**The Genesis of Grammar** Bernd Heine, Tania Kuteva, 2007-10-05 This book reconstructs what the earliest grammars might have been and shows how they could have led to the languages of modern humankind Like other biological phenomena language

cannot be fully understood without reference to its evolution whether proven or hypothesized wrote Talmy Givón in 2002 As the languages spoken 8 000 years ago were typologically much the same as they are today and as no direct evidence exists for languages before then evolutionary linguists are at a disadvantage compared to their counterparts in biology Bernd Heine and Tania Kuteva seek to overcome this obstacle by combining grammaticalization theory one of the main methods of historical linguistics with work in animal communication and human evolution The questions they address include do the modern languages derive from one ancestral language or from more than one What was the structure of language like when it first evolved And how did the properties associated with modern human languages arise in particular syntax and the recursive use of language structures The authors proceed on the assumption that if language evolution is the result of language change then the reconstruction of the former can be explored by deploying the processes involved in the latter Their measured arguments and crystal clear exposition will appeal to all those interested in the evolution of language from advanced undergraduates to linguists cognitive scientists human biologists and archaeologists *Language, Globalization and the Making of a Tanzanian Beauty Queen* Sabrina Billings, 2013-11-29 Through micro analysis of language use this book chronicles young women's pathways to becoming a Tanzanian beauty queen offering an original perspective on the intersection of language with globalization nationalism and inequality in urban East Africa This compelling linguistic ethnography considers the real life effects both on and off stage of language policy education and gender dynamics for the women competing in the pageants While highlighting many contestants' struggles for escape from poverty and patriarchy the book also emphasizes their creative strategies linguistic and otherwise for bettering their lives and shows how people living in a global economic periphery take part in and sometimes feel left out of the wider world *Language and National Identity in Africa* Andrew Simpson, 2008-02-07 This book focuses on language culture and identity in nineteen countries in Africa Leading specialists mainly from Africa describe national linguistic and political histories assess the status of majority and minority languages and consider the role of language in ethnic conflict **AF Press Clips**, 1972 **Popobawa** Katrina Daly Thompson, 2017-02-06 Bravely takes on not the legendary shapeshifting creature spoken about sporadically on the Swahili coast of Tanzania but rather popobawa discourse The Journal of Modern African Studies Since the 1960s people on the islands off the coast of Tanzania have talked about being attacked by a mysterious creature called Popobawa a shapeshifter often described as having an enormous penis Popobawa's recurring attacks have become a popular subject for stories conversation gossip and humor that has spread far beyond East Africa Katrina Daly Thompson shows that talk about Popobawa becomes a tool that Swahili speakers use for various creative purposes such as subverting gender segregation advertising homosexuality or discussing female sexuality By situating Popobawa discourse within the social and cultural world of the Swahili Coast as well as the wider world of global popular culture Thompson demonstrates that uses of this legend are more diverse and complex than previously thought and provides insight into how women and men communicate in

a place where taboo prohibition and restraint remain powerful cultural forces While Popobawa surely belong to one of the most interesting African legends Katrina Daly Thompson instead of asking where the story originated asks about how people talk about this trickster and what these conversations really mean Claudia Boehme University of Trier A well researched and well documented addition to the body of knowledge on local legends and their global manifestations Journal of Folklore Research Thompson s movement between local and global discourses demonstrates the importance of a phenomenon that could otherwise be viewed as exotic ethnographic trivia while her theoretical orientation makes the text as relevant to linguistic anthropologists as to African studies scholars African Studies Review *African Writers* Bridgette Kasuka,2013-05 This work looks at some African writers including those who are not well known to show the potential and diversity in the works produced by Africans Included is a profile of Chinua Achebe and commentaries on his works soon after he passed away

*Slave Emancipation, Christian Communities, and Dissent in Post-Abolition Tanzania, 1878-1978* Salvatory S Nyanto,2024-11-19 The first historical account of the dramatic growth of Christianity in Western Tanzania during the twentieth century and of the role of former slaves in this process Examining the intersection of post slavery and evangelism this book shows the ways that former slaves from a variety of linguistic and cultural backgrounds came together to create new communities in the Christian missions of western Tanzania It shows how converts adapted to Christianity and at the same time shaped it through their translations of the Bible and other religious texts into the Kinyamwezi language integrating concepts from their own cultures and experiences of slavery Working as teachers pastors and catechists former slaves and their descendants laid the basis for the growth of African Christianity in the region and the book pays particular

attention to women's agency in creating spaces for negotiating kinship ties and mutual relations with the wider communities. It also delves into the range of missionary sources to show the experience of lay Christians who opposed religious authority in Catholic and Moravian missions, examining the division caused by catechists' demands for equality of status, recognition and appropriate pay in the context of ujamaa and the turmoil brought about by the revival movement. Through narratives of religious experience from multiple missions and village outstations, the book shows how former slaves created a Kinyamwezi speaking Christian culture, taking inspiration both from European missionaries and neighbouring African villagers and became part of evolving rural communities in the inter-war period, enabling their descendants to achieve a significant degree of social mobility.
