Spoken Words Of Expression:

Freud and the Spoken Word Ana-Maria Rizzuto, 2015-06-12 There is extensive literature on Freud and language however there is very little that looks at Freud's use of the spoken word In *Freud and the Spoken Word* Speech as a key to the unconscious Ana Maria Rizzuto contends that Freud's focus on the intrapsychic function and meaning of patients' words allowed him to use the new psychoanalytic method of talking to gain access to unconscious psychic life In creating the first talking therapy Freud began a movement that still underpins how psychoanalysts understand and use the spoken word in clinical treatment and advance psychoanalytic theory With careful and critical reference to Freud's own work this book draws out conclusions on the nature of verbal exchanges between analyst and patient Ana Maria Rizzuto begins with a close look at Freud's early monograph *On Aphasia* suggesting that Freud was motivated by his need to understand the disturbed speech phenomena observed in three of the patients described in *Studies on Hysteria* She then turns to an examination of how Freud integrated the spoken word into his theories as well as how he actually talked with his patients looking again at the *Studies in Hysteria* and continuing with the Dora case the Rat Man and the Wolf Man In these chapters the author interprets how Freud's report of his own words shed light on the varying relationships he had with his patients when and how he was able to follow his own recommendations for treatment and when another factor therapeutic zeal or the wish to prove a theory appeared to interfere in communication between the two parties in the analysis *Freud and the Spoken Word* examines Freud's work with a critical eye The book explores his contribution in relation to the spoken word enhances its significance and challenges its shortcomings It is written for psychoanalysts psychotherapists Freud's scholars and academics interested in his views on the words spoken in life and in psychoanalysis Argentine born Ana Maria Rizzuto trained in psychoanalysis in Boston and was for forty years in the PINE Psychoanalytic Center Faculty and is Training and Supervisory Analyst Emerita She has made significant contributions to the psychoanalysis of religious experience and has written in national and international journals about the significance of words in the clinical situation She has written three books and lectured about her work in North America Latin America Europe and Japan **The Spoken Word in Life and Art** Estelle Headley Davis, Edward William Mammen, 1927 **The Spoken Word** William Norwood Brigance, 1927 **The Handbook of Speech Perception** Jennifer S. The Spoken Word Louie Bagley,1925 **The Quarterly Journal of Speech** ,1928 *Meaning, Expression and Thought* Wayne A. Davis,2002-11-11 This philosophical treatise on the foundations of semantics is a systematic effort to clarify deepen and defend the classical doctrine that words are conventional signs of mental states principally thoughts and ideas and that meaning consists in their expression This expression theory of meaning is developed by carrying out the Gricean programme explaining what it is for words to have meaning in terms of speaker meaning and what it is for a speaker to mean something in terms of intention But Grice s own formulations are rejected and alternatives developed The foundations of the expression theory are explored at length and the author develops the theory of thought as a fundamental cognitive phenomenon distinct from belief and desire argues for the thesis that thoughts have parts and identifies ideas or concepts with parts of thoughts This book will appeal to students and professionals interested in the philosophy of language
