*Structural Linguistics in the 21st Century* Geoffrey Sampson, 2024-09-03 This book is a sequel to Geoffrey Sampson's well received textbook *Schools of Linguistics*. Linguistics changed around the millennium the advent of cheap air travel and the internet meant that geographical distance ceased to be a barrier to scholarly interaction so new developments are no longer grouped into separate schools located in different places. Consequently the best way to show how linguistics is flowering in our time is through a sampler displaying individual examples of recent advances. Sampson offers such a sampler describing two dozen of the most interesting innovations in the subject to have emerged in the present century. And he includes a few looks back at how the approaches described in *Schools of Linguistics* panned out in the closing years of the old century before they evolved into or made way for today's more realistic and more diverse linguistics.
