Snow,2013-05-28 Until the age of four Irene Snow lived happily with her mother and gentle doting grandparents The return of her father a rough and tough soldier at the close of World War II set the stage for rebellion and dissent in her young life He was a strict disciplinarian and she resented his authority from the outset Whats more his arrival introduced her to the baser emotions of jealousy and hatred which were previously beyond her ken as the reigning princess in Grandmas house As she grew older her life became a search to regain the pedestal she lost no matter what it took As a young woman she fell in love with a married German and had his child out of wedlock Aware of her fathers deep and abiding enmity for the enemy she reveled in his displeasure he in turn vowed to disown his grandchild Irene s seven year love affair ended with her marriage to a Canadian widower but her wedding was closely followed by a tragedy that ignited her darker emotions and eventually brought her to a nervous breakdown psychosis and utter darkness She turned to the field of psychology in the hope it might shed light on her self defeating behavior While her studies provided many answers they did not lead to peace Finally she embarked upon a spiritual journey that led her to A Course in Miracles Once she began to reach out with love her life changed dramatically

Metaphysical Song Gary Tomlinson,2014-12-25 In this bold recasting of operatic history Gary Tomlinson connects opera to shifting visions of metaphysics and selfhood across the last four hundred years The operatic voice he maintains has always acted to open invisible supersensible realms to the perceptions of its listeners In doing so it has articulated changing relations between the self and metaphysics Tomlinson examines these relations as they have been described by philosophers from Ficino through Descartes Kant and Nietzsche to Adorno all of whom worked to define the subject s place in both material and metaphysical realms The author then shows how opera in its own cultural arena distinct from philosophy has repeatedly brought to the stage these changing relations of the subject to the particular metaphysics it
