The Gum Bichromate Contemporary Methods For Photographic Printmaking:

The Gum Bichromate Book David Scopick, 1991 Takes the reader step by step through the techniques necessary to use the gum bichromate printing process The use of gum bichromate an historical printing process that gives delicate colour to prints peaked at the turn of the century Based on the historic method this book is written in contemporary terms using currently available materials The reader will achieve success without further reading or support The results are truly amazing and inspiring Those of you who think that gum bichromate will not produce a sharp image think again The Photographic Journal September 1994 *Gumoil Photographic Printing, Revised Edition* Karl Koenig, 1999-06-28 There is renewed interest among art photographers in a number of historic printing techniques because of the remarkable effects they produce The reader will discover how to create beautifully tinted mono and polychromatic gum and oil images using the author's version of this 19th century technique Step by step illustrated instructions with directions for further experimentation provide a perfect source for learning this new yet old printing technique Gumoil printing involves contact printing a positive transparency onto gum coated paper Oil paint is then applied and rubbed into nongummed areas of the print With bleach etching mono and polychromatic variations are possible A chapter on digital printing combines the new and the historic making this technique even more accessible for the art photographer **Transformational Imagemaking:**

Handmade Photography Since 1960 Robert Hirsch, 2014-01-10 This groundbreaking survey of significant work and ideas focuses on imagemakers who have pushed beyond the boundaries of photography as a window on our material world Through interviews with more than 40 key artists this book explores a diverse group of curious experimentalists who have propelled the medium's evolution by visualizing their subject matter as it originates from their mind's eye Many favor the historical techniques commonly known as alternative photographic processes but all these makers demonstrate that the real alternative is found in their mental approach and not in their use of physical methods Within this context photographer and photography historian Robert Hirsch outlines the varied approaches these artists have utilized to question conventional photographic practices to convey internal realities and to examine what constitutes photographic reality Hirsch explores the half century evolution of these concepts and methodologies and their popularity among contemporary imagemakers who are merging digital and analog processes to express what was thought to be photographically inexpressible Read an interview with the author at Photo net http://photo.net/learn/photographer/interviews/robert_hirsch *The Gum Bichromate Book* David Scopick, 1978 *Gum Printing* Christina Z Anderson, 2016-06-17 Gum Printing A Step by Step Manual Highlighting Artists and Their Creative Practice is a two part book on gum bichromate written by the medium's leading expert Christina Z Anderson Section One provides a step by step description of the gum printing process From setting up the dimroom no darkroom required to evaluating finished prints it walks the reader through everything that is needed to establish a firm gum practice with the simplest of setups at home Section Two showcases contemporary artists' works illustrating the myriad ways

gum is conceptualized and practiced today The works in these pages range from monochrome to colorful and from subtle to bold representing a variety of genres including still lifes portraits nudes landscapes urbanscapes and more Featuring over 80 artists and 400 full color images Gum Printing is the most complete overview of this dynamic and expressive medium that has yet appeared in print Key topics covered include The history of gum Simple digital negatives for gum platinum and cyanotype Preparing supplies Making monochrome duotone tricolor and quadcolor gum prints Printing gum over cyanotype Printing gum over platinum Troubleshooting gum Advice on developing a creative practice **Alternate Processes in Photography**
