Library, 1898     **Confucianism as a World Religion** Anna Sun, 2013-04-21 Is Confucianism a religion If so why do most  
Chinese think it isn't From ancient Confucian temples to nineteenth century archives to the testimony of people interviewed  
by the author throughout China over a period of more than a decade this book traces the birth and growth of the idea of  
Confucianism as a world religion The book begins at Oxford in the late nineteenth century when Friedrich Max Müller and  
James Legge classified Confucianism as a world religion in the new discourse of world religions and the emerging discipline  
of comparative religion Anna Sun shows how that decisive moment continues to influence the understanding of Confucianism  
in the contemporary world not only in the West but also in China where the politics of Confucianism has become important to  
the present regime in a time of transition Contested histories of Confucianism are vital signs of social and political change  
Sun also examines the revival of Confucianism in contemporary China and the social significance of the ritual practice of  
Confucian temples While the Chinese government turns to Confucianism to justify its political agenda Confucian activists  
have started a movement to turn Confucianism into a religion Confucianism as a world religion might have begun as a  
scholarly construction but are we witnessing its transformation into a social and political reality With historical analysis  
extensive research and thoughtful reflection Confucianism as a World Religion will engage all those interested in religion and  
global politics at the beginning of the Chinese century     **A Study of Origins: Or, the Problems of Knowledge, of
