It radically shifts familiar colonial stereotypes of the feminized racialized cottier according to the Irish peasantry's subversive entanglement with nonhuman materiality. Each of the chapters engages a focused case study of an everyday object in colonial Ireland: coins, flax spinning wheels, mud, and pigs, to examine how each object's unique materiality contributed to the colonial ideology of British paternalism and afforded creative Irish expression. The main argument of *Irish Materialisms* is its methodology of reading literature through the agency of materiality and

nonhuman narrative in order to gain a more egalitarian and varied understanding of colonial experience Irish Materialisms proves that new materialism holds powerful postcolonial potential Through an intimate understanding of the materiality Irish peasants handled on a daily basis this book presents a new portrait of Irish character that reflects greater empowerment resistance and expression in the oppressed Irish than has been previously recognized **The Christian messenger** ,1885
