The Beginning of Boxing in Britain, 1300-1700 Arly Allen,2020-10-06 Many books have discussed boxing in the ancient world but this is the first to describe how boxing was reborn in the modern world Modern boxing began in the Middle Ages in England as a criminal activity It then became a sport supported by the kings and aristocracy Later it was again outlawed and only in the 20th century has it become a sport popular around the world This book describes how modern boxing began in England as an outgrowth of the native English sense of fair play It demonstrates that boxing was the common man s alternative to the sword duel of honor and argues that boxing and fair play helped Englishmen avoid the revolutions common to France Italy and Germany during the eighteenth nineteenth and twentieth centuries English enthusiasm for boxing largely drove out the pistol and sword duels from English society And although boxing remains a brutal sport it has made England one of the safest countries in the world It also examines how the rituals of boxing developed the meaning of the parade to the ring the meaning of the ring itself why only two men fight at one time why the fighters shake hands before each fight why a boxing match is called a prizefight and why a knock down does not end the bout Its sources include material from medieval manuscripts and its notes and bibliography are extensive
