Spirit of Buddhism Today Koin Takada,1973 Spirit of Buddhism Today Koin Takada,1973-01-01 *Spirit Possession in Buddhist Southeast Asia* Bénédicte Brac de la Perrière ,Peter A. Jackson,2022-03-31 In dramatic contrast to the reported growing influence of doctrinal and fundamentalist forms of religion in some parts of Southeast Asia the predominantly Buddhist societies of the region are witnessing an upsurge of spirit possession cults and diverse forms of magical ritual This is found in many social strata including the urban poor rising middle classes and elite groups and across the different political systems of Myanmar Thailand Cambodia and Vietnam This volume reveals both the central historical place of spirit possession rituals in the Buddhist cultures of mainland Southeast Asia and their important contemporary roles to enhance prosperity and protection This book examines the increasing prominence of spirit mediumship and divination across the region by exploring the interplay of neoliberal capitalism visual media the network cultures of the Internet and the politics of cultural heritage and identity It advances beyond critiques of the secularization and disenchantment theses to explore the processes of modernity that are actively producing magical worldviews and stimulating the rise of spirit cults As such it not only challenges the assumptions of modernization theory but demonstrates that the cults in question are novel ritual forms that emerge out of inherently modern conditions *Engaging the Spirit World* Kirsten W. Endres,Andrea Lauser,2012-03-01 In many parts of the contemporary world spirit beliefs and practices have taken on a pivotal role in addressing the discontinuities and uncertainties of modern life The myriad ways in which devotees engage the spirit world show the tremendous creative potential of these practices and their innate adaptability to changing times and circumstances Through in depth anthropological case studies from Indonesia Malaysia Thailand Myanmar Laos and Vietnam the contributors to this book investigate the role and impact of different social political and economic dynamics in the reconfiguration of local spirit worlds in modern Southeast Asia Their findings contribute to the re enchantment debate by revealing that the spirited modernities that have emerged in the process not only embody a distinct feature of the contemporary moment but also invite a critical rethinking of the concept of modernity itself **SPIRITUAL LIVING** Dr Marko Kimi Milic,2016-08-11 Book is written from view of autor on spiritual way of life self knowledge our higher being Proposal and ways we could go in our life s listening to ourselves **The Spiritual Life , Emotions and Spirituality in Religions and Spiritual Movements** Erika Wilson,2012-07-19 Applying recent psychological and neuropsychological studies of emotions Erika Wilson explores the role of emotions in major Eastern Western and primal religions as well as in some contemporary spiritual movements The book tries to answer the following questions What kinds of emotions and spiritual experiences arise in individuals and groups during prayer conversions rituals meditations and other spiritual practices Which positive emotions are valued most in a particular religion or spiritual movement How do these attitudes relate to their respective historical context And finally how does each religious or spiritual teaching recommend handling

negative emotions **The Psychologisation of Eastern Spiritual Traditions** Elliot Cohen, 2021-09-30 This essential book critically examines the various ways in which Eastern spiritual traditions have been typically stripped of their spiritual roots content and context to be more readily assimilated into secular Western frames of Psychology Beginning with the colonial histories of Empire the author draws from the 1960s Counterculture and the subsequent romanticising and idealising of the East Cohen explores how Hindu Buddhist and Daoist traditions have been gradually transformed into forms of Psychology Psychotherapy and Self Help undergoing processes of modernisation and secularisation until their respective cosmologies had been successfully reinterpreted and reimagined An important component of this psychologisation is the accompanying commodification of Eastern spiritual practices including the mass marketing of mindfulness and meditation as part of the burgeoning well being industry Also presenting emerging voices of resistance from within Eastern spiritual traditions the book ends with a chapter on Transpersonal Psychology showing a path for how to gradually move away from colonisation and towards collaboration Engaging with the mindfulness movement and other practices assimilated by Western culture this is fascinating reading for students and academics in psychology philosophy and religious studies as well as mindfulness practitioners Gautam Buddha (The Spiritual Light Of Asia) S.
