Spirit Of Enterprise The 1993 Rolex Awards:

Spirit of Enterprise: the 1993 Rolex Awards, 1993 **Spirit of Enterprise** David W. Reed, 1993 Describes the projects of the five laureates 36 honourable mentions and a further 226 individuals from all over the world who received Rolex Awards for Enterprise in 1993 for breaking new ground in the fields of applied sciences and invention exploration and discovery and the environment **Spirit of Enterprise**, 1996 **The Best of the Rolex Awards for Enterprise**, 1996 All laureates of the Rolex Awards for Enterprise are portrayed to show their commitments to do something that will make a difference in the world Spirit of Enterprise Montres Rolex S.A., 1984 Presentation af en række projekter med emne indenfor naturvidenskab teknik geografi arkologi miljø forbedring kommunikation m m som har været indstillet til Rolex Awards for Enterprise 1984 *Thermodynamics of Soil Nutrient Bioavailability* Kodoth Prabhakaran Nair, 2021-08-19 This book focusses on the thermodynamics of soil nutrient bioavailability and in particular the most important plant nutrients such as phosphorus and potassium among major nutrients and zinc among micronutrients It proposes a paradigm shift in the approach to global soil testing procedures Historically soil testing has been used to quantify availability of essential plant nutrients to field grown crops However contemporary soil tests are based on philosophies and procedures developed several decades ago without significant changes in their general approach For a soil test to be accurate one needs to clearly understand the physico chemical physiological processes at the soil root interface and an understanding of soils and plant root systems as polycationic systems is essential It is this knowledge that leads to sound prescriptive soil nutrient management inasmuch as soil nutrient bioavailability vis vis fertilizer application is concerned because of all the factors which govern sustainability in crop production the nutrient factor is the most important yet it is also least resilient to management This book provides a clear scientific basis of the thermodynamics of soil nutrient bioavailability which routine soil testing does not provide The Zen of Tantra Monica Esposito, 2013-03-11 After the Zen boom of the 1960s and 1970s Tibetan Buddhism increasingly captured the West's imagination Today entire stadiums fill when the Dalai Lama speaks training centers mushroom and books proliferate Even the most esoteric form of Tibetan Buddhism rDzogs chen or Great Perfection has found numerous followers in the West But the West stands not alone in communist China too this form of Buddhism experienced a kind of camouflaged boom from the 1980s Monica Esposito 1962 2011 one of Europe's foremost scholars of Chinese religions observed this process up close After her discovery in 1988 of a Buddhist nunnery on Mt Tianmu in China's Zhejiang province she lived and practiced under the monastery's founder a Chinese Zen Chan and Tibetan rDzogs chen Great Perfection master called Fahai Lama 1920 1991 Dr Esposito's book offers a fascinating glimpse into the daily life and practices of a Chinese Buddhist monastery and into the teachings of a man who not only survived the Cultural revolution as an acupuncturist Qigong master and recluse in a Daoist cave but managed to found and build a Chan monastery to promote Tibetan Tantra in a still thoroughly communist environment The Nutrient Buffer Power Concept For Sustainable

Agriculture K.P. Prabhakaran Nair, 2016-04-28 The Nutrient Buffer Power Concept a revolutionary soil testing procedure developed and tested for over more than three decades in European African and Asian soils looks at soil testing to devise appropriate and accurate fertilizer recommendations for many field crops such as summer rye wheat and maize among cereals red gram among pulses white clover among fodder crops and black pepper and cardamom among perennial crops with a totally new perspective as compared to routine and text book methods of soil testing The center piece of the concept is the accurate quantification of a soil nutrient s buffer power which is then integrated into routine soil test data to devise appropriate and accurate fertilizer recommendations **Coral Reef Restoration Handbook** William F. Precht, 2006-05-25 this book is the first to describe in detail the art and science of coral reef restoration It is to be hoped that the information that can be gleaned within the pages of this book will set a path towards continued preservation of this valuable underwater treasure to be used appreciated and experienced for future generations Senator Art, Peace, and Transcendence Paul Ré, 2015-12-30 American artist Paul R invites us to join him on his journey for harmony wisdom and inner joy with Art Peace and Transcendence His hybrid hand digital prints R ograms are a unique art form very different from the Rayograms made in the twentieth century by the American Surrealist Man Ray R s digital prints are computer manipulations of the drawings paintings and sculpture he has created over his forty year career the transformations may be mild or dramatic each manually massaged into a harmonious whole Commentary by the artist drawing from his background in physics philosophy and the practice of yoga and meditation accompanies the fifty eight full page plates placing each piece in its historical context Bridging the lines of art and science R takes us on a discovery of our oneness with the whole of the universe and the source from which it emerged *Intelligent Soil Management for Sustainable Agriculture* Kodoth Prabhakaran Nair, 2019-06-20 This book conceptualizes a revolutionary idea based on a mechanistic mathematical model in which the Buffer Power of the principal and problematic nutrients like phosphorus potassium and zinc is quantified This is achieved by using either a very sophisticated technique electro ultra filtration or a simple adsorption desorption equilibrium technique and by integrating the Buffer Power of the nutrient in question into the computations accurate fertilizer recommendations are made This technique was field tested across Europe Germany and Belgium Africa The Republic of Cameroon and Asia both Central Asia Turkey and South Asia India during a period of three decades in test crops such as summer rye Secale cereale maize Zea mays wheat Triticum aestivum white clover Trifolium repens a highly nutritious and palatable fodder crop for Africa black pepper Piper nigrum and cardamom Elettaria cardamomum Remarkable precision in predictability of plant uptake of phosphorus potassium and zinc was obtained employing the technique The Nutrient Buffer Power Concept project was shortlisted for the very prestigious U S 1 Million Rolex Awards For Enterprise of The Rolex Foundation Geneva Switzerland for its outstanding originality and quality from more than 3500 nominations worldwide and is the only project chosen for this very coveted distinction from the Asian continent **Facets of Qing Daoism** Monica Esposito, 2016-03-11 As China is

rapidly reemerging as the world's dominant economic powerhouse that it had been until the mid eighteenth century interest in its religions and philosophies is on the rise Just as the history and culture of Western civilizations can hardly be grasped without a measure of knowledge about Christianity an understanding of Chinese civilization and its history seems impossible without some comprehension of Daoism Though it has long been clear that modern Daoism has its roots in Daoist movements of the Qing dynasty 1644-1911 research on premodern Daoism had been largely neglected Published in six languages Italian French English German Chinese and Japanese the pioneering studies by Monica Esposito 1962-2011 on Qing Daoism have been instrumental in kindling keen scholarly interest both in the West and in China and Japan This book presents corrected and augmented versions of three of Dr Esposito's seminal articles that had originally been published in English Daoism in the Qing The Longmen School and its Controversial History and Longmen Daoism in Qing China Doctrinal Ideal and Local Reality along with English versions of two articles that had hitherto only been available in Japanese and Chinese Beheading the Red Dragon The Heart of Feminine Alchemy and An Example of Daoist and Tantric Interaction during the Qing Dynasty The Longmen xinzong In addition this volume contains a bibliography of all her publications and a detailed index Creative Daoism Monica Esposito, 2015-09-09 Just as Christianity has its Vatican in Rome modern Daoism boasts of a unique center of religious authority and administration the Temple of the White Clouds Baiyun guan in Beijing seat of the general headquarters of the Chinese Daoist Association This temple complex in Beijing called by Dr Esposito modern Daoism's Vatican houses the grave of the mythical founder of Daoism's Quanzhen tradition and celebrates the patriarchs of its Longmen Dragon Gate branch as his legitimate heirs This book shows in detail how Daoist masters and historiographers in China much like their Catholic counterparts in Europe invented a glorious patriarchal lineage as well as a system of ordination designed to perpetuate orthodox transmission and central control They also created a kind of New Testament a new canonical collection of scriptures entitled The Gist of the Daoist Canon Daozang jiyao This ultimate canon of Daoism contains hundreds of texts including the Daoist classic The Secret of the Golden Flower which achieved fame through the commentary by Swiss psychologist Carl Gustav Jung A classic study on the invention of religious traditions the four parts of Creative Daoism describe the creation of the Daoist Vatican's Longmen lineage of patriarchs system of ordination canon of sacred scriptures and doctrine of universal salvation **Marine Technology Society Journal**, 1994 *Heritage, Pilgrimage and the Camino to Finisterre* Cristina Sánchez-Carretero, 2015-07-02 This book presents research concerning the effects of the Camino to Finisterre on the daily lives of the populations who live along the route and the heritagization processes that exploitation of the Camino for tourism purposes involves Rather than focusing on the route to Santiago de Compostela and the pilgrimage itself it instead examines a peculiar part of the route the Camino to Finisterre employing multiple perspectives that consider the processes of heritagization the effects of the pilgrimage on local communities and the motivations of the pilgrims The book is based on a three year research project and is the result of a multidisciplinary

collaboration between anthropologists sociologists historians and archaeologists Instead of ending in Santiago as the rest of the Caminos do this route continues to the cape of Finisterre on the Galician Atlantic coast This part of the Camino de Santiago is not officially recognized by the Catholic Church and does not count as part of reaching Compostela the recognition granted by the Catholic Church to those pilgrims who have walked at least 100 km For this reason as well as its relationship with the sun cult many pilgrims call this route the Camino of the atheists In fact the Catholic Church is a strong force for the heritagization of the rest of the Caminos and maintains a clear ignoratio strategy concerning the Finisterre route Officially the church neither opposes nor recognizes this route

Images Du Tibet Aux XIXe Et XXe Siècles Monica Esposito, 2008 There may be no other country in the world that has given rise to so many fantastic fascinating and conflicting images as Tibet In the 19th and 20th centuries as the mysterious country on the roof of the world increasingly became the goal of travelers and the object of study new images arose in various parts of the world These two volumes are the first to trace the evolution characteristics and influence of premodern and modern images of Tibet in both Orient and Occident Twenty five contributions by specialists from Europe the United States China and Japan present and analyze images of Tibet and Tibetan Buddhism Tracing the formation character and impact of such images these studies address a broad range of issues from the development of Tibetology and Buddhist studies to the history of ideas spanning East and West

The Terminal Classic in the Maya Lowlands Arthur Andrew Demarest, Prudence M. Rice, Don S. Rice, 2005 The Terminal Classic in the Maya Lowlands revisits one of the great problems in Mayan archaeology the apparent collapse of Classic Maya civilization from roughly A D 830 to 950 During this period the Maya abandoned their power centers in the southern lowlands and rather abruptly ceased the distinctive cultural practices that marked their apogee in the Classic period Archaeological fieldwork during the past three decades however has uncovered enormous regional variability in the ways the Maya experienced the shift from Classic to Postclassic society revealing a period of cultural change more complex than acknowledged by traditional models Featuring an impressive roster of scholars The Terminal Classic presents the most recent data and interpretations pertaining to this perplexing period of cultural transformation in the Maya lowlands Although the research reveals clear interregional patterns the contributors resist a single overarching explanation Rather this volume s diverse and nuanced interpretations provide a new more

properly grounded beginning for continued debate on the nature of lowland Terminal Classic Maya civilization
