philosophy offers a definitive modern translation of Lao Tzu's Taoist classic considered the most influential spiritual text in human history. Like all of his translations, Hinton's translation of the Tao Te Ching is mind-opening, presenting startling new dimensions in this widely influential text. He shows how Lao Tzu's spirituality is structured around the generative life force and that this system of thought weaves the human into natural process at the deepest levels of being, revealing the Tao Te Ching as an originary text in deep feminist and ecological thought. Lao Tzu's Tao Te Ching is not only the single most important text ever composed in China; it is probably the most influential spiritual text in human history. In the past, virtually all translations of this text have been produced either by sinologists having little poetic facility in English or writers having no ability to read the original Chinese. Hinton's fluency in ancient Chinese and his acclaimed poetic ability provide him the essential qualifications. Together, they allow a breathtaking new translation that reveals how remarkably current and even innovative this text is after 2500 years.

Lao Tse. Tao Te Ching Vladimir Antonov, 2007-10-01. The book Tao Te Ching was written by great Chinese spiritual adept Lao Tse about 2500 years ago. It is one of the most fundamental textbooks on philosophy and methodology of spiritual development.

The Tao of the Tao Te Ching Michael LaFargue, 2010-03-31. In this new translation and commentary, LaFargue interprets the concept of Tao in the Tao Te Ching as a spiritual state of mind cultivated in a particular school in ancient China, a state of mind which also expressed itself in a simple but satisfying life style and in a low key but effective style of political leadership. The interpretation offered here is not only historically accurate but also conveys the spiritual depth of the Tao Te Ching and its contemporary relevance. The translation is made transparent by a design that presents all of the commentary on the page facing the relevant text.

The Way and Its Power Laozi, Arthur Waley, 1958. Arthur Waley's brilliant and definitive translation of one of the foremost of all mystical books, Lao Tzu's Tao Te Ching, has become a modern classic in its own right. Unlike previous translations, it is founded not on the medieval commentaries but on a close study of all the early Chinese literature, and it provides a singular example of authoritative scholarship skillfully blended with brilliant precise writing. In his introduction, Dr. Waley gives an extensive scholarly account of Chinese thought down to the end of the third century B.C. Here, the author presents a full picture of Chinese prehistory, early philosophy and literature, showing the original lofty conception of Taoism before the gradual corruption through the course of centuries, tracing this conflict of philosophies and its background of politics.

A Path and a Practice William Martin, 2009-04-24. The Tao Te Ching, one of the most loved and widely translated books in human history, has appeared in countless English language versions. But no modern translation has yet captured the essential thrust of Lao Tzu's work as a practical guide to living an awakened life. Now William Martin, whose acclaimed previous reinterpretations of the Tao for parents, couples and elders have introduced or reacquainted this classic text to thousands of readers, strikingly translates the Tao's eighty-one chapters to uniquely address someone on a Tao or path with a practice. Martin frames his new translation with two illuminating groundbreaking sections: A Path, which introduces the Tao's nonlinear construction and

explains how it works its themes and A Practice which provides practical guidance for readers exploring each of the Tao s themes in depth Martin s genius in this new translation uncovers how directly the Tao speaks to readers on or about to embark on a spiritual journey
