Manifesting Spirits Jack Hunter, 2020-12-12 An exploration of contemporary trance and physical mediumship at a private spiritualist home circle called the Bristol Spirit Lodge Located in a garden on the outskirts of Bristol the Lodge is a wooden shed specially constructed for the purposes of mediumship development and spirit communication Through a combination of ethnographic observations in s ances including his own experiences of mediumship development and interviews with spirits and their mediums Hunter delves into a sub urban world of trance states ectoplasm spirit lights and discarnate entities Issues relating to altered states of consciousness personhood performance and the efficacy of ritual are examined in order to make sense of the processes by which spirits become manifest in social reality A large part of *Manifesting Spirits* is given over to a broader discussion of anthropology s evolving attitudes toward the paranormal as a component of the life worlds of many people across the globe and argues for the development of a non reductive anthropological approach to the paranormal and mediumship in particular This emerging framework referred to as ontological flooding does not attempt to explain away the existence of spirits in terms of functional cognitive or pathological theories as most mainstream theorists tend to do but rather embraces a processual perspective that emphasises complexity and multiple interconnected processes underlying spirit possession performances and experiences

Collective Rationality Paul Weirich, 2010 Groups of people perform acts that are subject to standards of rationality The book s theory of collective rationality explains how to evaluate collective acts The people engaged in a game of strategy collectively produce an outcome and the theory reveals what makes some outcomes solutions It generates new equilibrium standards for solutions to cooperative games

Metaphysical Divine Wisdom on Soul Consciousness and Purpose Kevin Hunter, 2019-06-27 Soul Consciousness and Purpose looks at the many areas that one's physical and spiritual life all play a

big part in the evolving nature of your soul's consciousness which is connected to your life missions and purposes. The more enlightened you become and the more you raise your soul consciousness, then the less strain is experienced as you navigate through the treacherous waters of the practical world. Your vibration is made up of undetectable cells to the human eye but visible to the spiritual eye. It is an invisible energy field that exists within your soul's aura and physical body. These cells fluctuate and change colors depending on your mood, your thought processes, your actions, who you surround yourself with, as well as what you ingest into your body. You are in control of this vibration energy field, able to oversee and dictate how well you would like it to function through your life choices. A raised soul consciousness gives you wider psychic perception that allows room for stronger cognitive input. This is the area where divinely guided information from above falls into and is planted. Some of the topics discussed include opening the pathway to divinity, knowing when your soul is transforming and evolving, awakening your creative consciousness, soul contracts, life purposes, healing and transformation, soul groups and earth angels, the earthly birth of the soul and spirit, the higher self, soul growth through grief, soul growth through health issues, soul growth through relationships, soul growth through work and career, soul growth through superficiality, soul growth through emotional healing, the human influences on the soul consciousness, and much more.
