Spirits Of '76 Catholic Inquiry:

The Spirits of '76 Donald J. D'Elia, 1983 Historian Donald D Elia offers one of the most original sets of essays ever penned on the seven greatest founding fathers looking at the development of their philosophical and religious convictions The essays include The Relevance of Thomas Jefferson Benjamin Rush A Christian Revolutionary John Adams Revolutionary as Manichaeon Charles Carroll of Carrollton A Catholic Revolutionary George Washington The Founder as Stoic Alexander Hamilton From Caesar to Christ and Benjamin Franklin Poor Richard s Religion **The Transformation of the American**

Democratic Republic Stephen M. Krason, 2017-09-08 In this stimulating volume Stephen M Krason considers whether the Founding Fathers vision of the American democratic republic has been transformed and if so in what ways He looks to the basic principles of the Founding Fathers then discusses the changes that resulted from evolving contemporary expectations about government Referencing philosophical principles and the work of great Western thinkers Krason then explores a variety of proposals that could forge a foundation for restoration Acknowledging that any attempt to revive the Founders views on a democratic republic must start in the public sphere Krason focuses on concerned citizens who are aware of the extent to which our current political structures deviate from the Founders vision and want to take action Ultimately a democratic republic can exist be sustained and flourish only when there is a deep commitment to it in the minds and norms of its people Written by a foremost authority in the field of US Constitutional law this book will appeal to those interested in American history society and politics **Was Frankenstein Really Uncle Sam? Vol Xi** Richard J. Rolwing, 2009-02-23

Each of the first four volumes of this series contain 365 essays Each subsequent volume contains about 36 essays Volumes grow bigger as later essays grow longer Rolwing examines nearly all the major writers on our Basic Charter most of whom repudiate it He focuses on their manifold criticisms and rejections reveals their multiple distortions and misunderstandings rebukes their self contradictions and inconsistencies and pities their general theophobia He argues that while America was Founded almost completely by Protestant Christians the only two deists were not even deists what was Founded was formally only a philosophical product not a faith based or Christian one although the philosophy had been more Catholic than Protestant Rolwing makes a great deal of American history law ethics politics philosophy and theology easily accessible to the average reader Each 5 minute essay can give you a high for the whole day **Bright Promise, Failed Community**

Joseph A. Varacalli, 2001-01-01 In Bright Promise Failed Community respected Catholic sociologist Joseph Varacalli describes how and why Catholic America has essentially failed to shape the American Republic in any significant way American society has never experienced a Catholic moment the closest it came was during the immediate post World War II era nor is it now close to approximating one Varacalli identifies as the cause of the current situation the failed community of Catholic America an ineffective and dissent ridden set of organizational arrangements that has not succeeded in adequately communicating the social doctrine of the Church to Catholic Americans or to the key idea generating sectors of American life The bright promise

of Catholic America lies in the long and still developing tradition of social Catholicism With a revitalized orthodox sophisticated community to serve as the carrier of Catholic social doctrine Varacalli sees trends of thought that would propose viable alternatives to philosophies and ideologies that currently dominate the American public sphere ones that would thus have a formidable impact on American society **Religion and Political Structures** John T. Ford, Robert A. Destro, Charles Richard Dechert, 2005 **The Revolution Against Christendom, 1661-1815** Warren Hasty Carroll, 2006-03 Chronicles developments in Christianity and the Catholic Church the papacy and its place in world history from 1661 to 1815 focusing in particular on the Church in France from the French Revolution through the rule of Napoleon

A free inquiry into the Irish Education Question John MacEvoy, 1866 *Subject Guide to Books in Print*, 1997 *The Vodou Ethic and the Spirit of Communism* Paul C. Mocombe, 2016-02-04 Using a variant of structuration theory what Paul C Mocombe calls phenomenological structuralism this work explores and highlights how the African religion of Vodou and its ethic i e syncretism materialism communal living or social collectivism democracy individuality cosmopolitanism spirit of social justice xenophilia balance harmony and gentleness gave rise under the leadership of oungan yo manbo yo gangan yo and granmoun yo to the Haitian spirit of communism and the counter plantation system Jean Casimir s term in the provinces and mountains of Haiti What Mocombe calls the Vodou Ethic and the spirit of communism of the African people of Haiti would be juxtaposed against the Catholic Protestant Ethic and the spirit of capitalism of the white mulatto gens de couleur and petit bourgeois free black classes of the island This latter worldview the Catholic Protestant Ethic and the spirit of capitalism Mocombe goes on to argue exercised by the free bourgeois blacks and mulatto elites Affranchis on the island undermined the revolutionary and independence movement of Haiti commenced by subjects agents oungan yo manbo yo gangan yo dokt fey and granmoun yo of the Vodou ethic and the spirit of communism and made it the poorest most racist and tyrannical country in the Western Hemisphere **Downfall of Babylon**, 1834 **Letter and Spirit** Scott Hahn, Dave Scott, 2006 Letter Spirit is a journal of Catholic biblical theology for the new millennium It seeks to foster deeper understanding of sacred Scripture and the divine liturgy of the Church This second volume of the journal The Authority of Mystery The Word of God and the People of God is inspired by the scholarship of Pope Benedict XVI especially Benedict s concerns about the relation of the Bible to faith in Christ The editors write in their introduction As we write in our introduction How to read the Bible is at bottom a question about the identity of Jesus Is he Jesus of Nazareth only or is he also the Christ the Son of the living God Did he have a divine mission to reveal the mystery of God or was he only a man like others Does he remain among us in sacrament and liturgy Letter Spirit is published annually by the St Paul Center for Biblical Theology a nonprofit research and educational institute founded by Dr Scott Hahn The journal is published in association with Emmaus Road Publishing **The Cosmic Breath** Amos Yong, 2012-05-10 Recent thinking in the interfaith dialogue and in the theology science dialogue have taken a pneumatological turn The Cosmic Breath explores this

pneumatological theology as unfolded in the Christian Buddhist dialogue alongside critical interaction with the theology and science conversation As an attempt in comparative and constructive Christian philosophical theology its central thesis is that a pneumatological approach to Buddhist traditions in further dialogue with modern science generates new philosophical resources that invigorate Christian thinking about the natural world and humanity's place in it The result is a transformation of the Buddhist Christian dialogue from insights generated in the theology and science interface and a contribution to the religion and science dialogue from a comparative theological and philosophical perspective *The Catholic Periodical and Literature Index*, 1975

Revelations of Chance Roderick Main, 2007-03-08 In this fascinating book Roderick Main examines meaningful coincidence or what Swiss psychiatrist C G Jung called synchronicity Moving beyond Jung's psychological theory he explores the plausibility and value of viewing synchronicity as a form of spiritual experience and clarifies connections between the phenomenon and a range of traditional spiritual concepts including numinosity miraculousness transformation unity transcendence and immanence providence and revelation Through the detailed analysis of two remarkable series of synchronistic events Main illustrates and further develops these connections He also includes an examination of the alleged synchronistic basis of the ancient Chinese Oracle of Change the I Ching

The Strong Spirit Andrew Gibson, 2013-02-28 Scholarly accounts of Joyce's early work have traditionally resorted to two historical keys to try to unlock it a concept of the Dublin and Ireland in which he grew to adulthood as stagnant and backward and an emphasis on 1904 the year of the supposedly crucial break in which Joyce quit Ireland for continental Europe and could begin his great modernist literary project But modernist or no Joyce's works are always about Ireland and he remained vitally in touch with Irish historical developments throughout his life This study aims to be the first comprehensive historicisation of Joyce's writings 1898-1915 in relation to the distinct phases and shifting currents of British Irish history during the period At the turn of the century when a concept of national resurgence is much in the Irish air in his earliest essays Joyce meditates on art as an anti colonial and emancipatory project that addresses questions of freedom and justice in its own distinctive way His early essays produce a compelling declaration of a principle of autonomy at a specific historical moment in a colonial culture However successive historical events the crises surrounding the Land Act the United Irish League and Devolution the election of 1906 the Third Home Rule Bill crisis call the emancipatory project ever more sharply into question Thus the strong spirit which Joyce had initially thought might transcend and even conquer the effects of history becomes indissolubly wedded to radical historical scepticism Through *Dubliners* *Stephen Hero* the *Triestine Writings* and *A Portrait of the Artist as a Young Man* to *Exiles* Joyce responds to his predicament by examining recent Irish history and the place of the intellectual and artist within it in a variety of extremely subtle and complex or in Joycean terms labyrinthine forms of writing

Inquisitorial Inquiries Richard L. Kagan, Abigail Dyer, 2004-05-10 On the first day of Francisco de San Antonio's trial before the Spanish Inquisition in Toledo in 1625 his interrogators asked him about his parentage His real name he stated was

Abram Rub n and he had been born in Fez of Jewish parents How then Inquisitors wanted to know had he become a Christian convert Why had a Hebrew alphabet been found in his possession And what was his business at the Court in Madrid He was asked according to his dossier for the story of his life His response more than ten folios long is one of the many involuntary autobiographies created by the logic of the Inquisition that today provides rich insights into both the personal lives of the persecuted and the social cultural and political realities of the age In *Inquisitorial Inquiries* Richard Kagan and Abigail Dyer have collected translated and annotated six of these autobiographies from a diverse group of prisoners five tried in Europe and one in Mexico Each of the autobiographies has been selected to represent a particular political or social issue while at the same time raising more intimate questions about the religious sexual political or national identity of the prisoners Among them are a politically incendiary prophet a self proclaimed hermaphrodite charged with having violated the sacrament of marriage for having married a woman a female convert to Catholicism who betrayed her Jewish origins by serving as a rabbi and preaching heretical doctrine in the New World and a morisco an Islamic convert to Catholicism who claimed to have been circumcised against his will In their introduction Kagan and Dyer stress the collaborative nature of these texts stressing the coercion involved and the purpose of the interrogations that solicited them Making these invaluable primary sources available for the first time in English *Inquisitorial Inquiries* will be of interest to students and scholars in the fields of early modern Europe colonial Latin America gender studies and religious history

The Future of Christian Mission in India Augustine Kanjamala,2014-08-21 Colonial missionaries both Catholic and Protestant arrived in India with the grandiose vision of converting the pagans because like St Peter Acts 4 12 and most of the church fathers they honestly believed that there is no salvation outside the church extra ecclesiam nulla salus At the end of the great Protestant century however Christians made up less than 3 percent of the population in India and the hope of the missionary was nearly shattered But if one looks at mission in India qualitatively rather than quantitatively one sees a number of positive outcomes Missionaries in India particularly Protestant missionaries espousing the social gospel in collaboration with a few British evangelical administrators dared to challenge numerous social evils and even began to eradicate them The scientific and liberal English education began to enlighten and transform the Indian mindset Converts belonging to the upper caste although small in number laid the foundation stone of Indian theology and an inculturated church using Indian genius The end of colonialism in India coincided with the painful death of colonial mission theology Now the power of the Word of God extricated from political power is slowly and peacefully gaining ground like the mustard seed of the parable A paradigm shift from the ecclesio centric mission to missio Dei offers reason for further optimism In short the future of mission in India is as bright as the kingdom of God In today s new context theologians despite objections from some quarters are struggling to discover the Asian face of Jesus disfigured by the Greco Roman Church And the missionary is challenged to become a living Bible that undoubtedly everyone will read

The Scientific Spirit of American Humanism Stephen P.

Weldon, 2020-10-06 The story of how prominent liberal intellectuals reshaped American religious and secular institutions to promote a more democratic science centered society Winner of the Morris D Forkosch Award for Best Book by the Center for Inquiry Recent polls show that a quarter of Americans claim to have no religious affiliation identifying instead as atheists agnostics or nothing in particular A century ago a small group of American intellectuals who dubbed themselves humanists tread this same path turning to science as a major source of spiritual sustenance In *The Scientific Spirit of American Humanism* Stephen P Weldon tells the fascinating story of this group as it developed over the twentieth century following the fortunes of a few generations of radical ministers academic philosophers and prominent scientists who sought to replace traditional religion with a modern liberal scientific outlook Weldon explores humanism through the networks of friendships and institutional relationships that underlay it from philosophers preaching in synagogues and ministers editing articles of Nobel laureates to magicians invoking the scientific method Examining the development of an increasingly antagonistic engagement between religious conservatives and the secular culture of the academy Weldon explains how this conflict has shaped the discussion of science and religion in American culture He also uncovers a less known but equally influential story about the conflict within humanism itself between two very different visions of science an aspirational democratic outlook held by the followers of John Dewey on the one hand and a skeptical combative view influenced by logical positivism on the other Putting America's distinctive science talk into historical perspective Weldon shows how events such as the Pugwash movement for nuclear disarmament the ongoing evolution controversies the debunking of pseudo science and the selection of scientists and popularizers like Carl Sagan and Isaac Asimov as humanist figureheads all fit a distinctly American ethos Weldon maintains that this secular ethos gained much of its influence by tapping into the idealism found in the American radical religious tradition that includes the deism of Thomas Paine nineteenth century rationalism and free thought Protestant modernism and most important Unitarianism Drawing on archival research interviews and a thorough study of the main humanist publications *The Scientific Spirit of American Humanism* reveals a new level of detail about the personal and institutional forces that have shaped major trends in American secular culture Significantly the book shows why special attention to American liberal religiosity remains critical to a clear understanding of the scientific spirit in American culture
