Dr.

Beryl Dennis, 2022-01-27 Through personal experience as a caregiver to my parents I gained first hand knowledge of the responsibilities family caregivers carry on their shoulders It became important for me to find out what other family caregivers say they need to help sustain their spirit during the journey of caring for someone they love The outcome of this inquiry is a devotional developed in direct response to family caregiver interviews and their answers to survey questions Woven between the pages of this devotional is a message for family caregivers individuals concerned about family caregivers faith communities and for community groups that are not faith based The devotional is a companion for the caregiving

Oxford Textbook of Spirituality in Healthcare Mark Cobb, Christina Puchalski, Bruce Rumbold, 2012-08-09 The relationship between spirituality and healthcare is historical intellectual and practical and it has now emerged as a significant field in health research healthcare policy and clinical practice and training Understanding health and wellbeing requires addressing spiritual and existential issues and healthcare is therefore challenged to respond to the ways spirituality

is experienced and expressed in illness suffering healing and loss If healthcare has compassionate regard for the humanity of those it serves it is faced with questions about how it understands and interprets spirituality what resources it should make available and how these are organised and the ways in which spirituality shapes and informs the purpose and practice of healthcare These questions are the basis for this resource which presents a coherent field of enquiry discussion and debate that is interdisciplinary international and vibrant There is a growing corpus of articles in medical and healthcare journals on spirituality in addition to a wide range of literature but there has been no attempt so far to publish a standard text on this subject Spirituality in Healthcare is an authoritative reference on the subject providing unequalled coverage critical depth and an integrated source of key topics Divided into six sections including practice research policy and training the project brings together international contributions from scholars in the field to provide a unique and stimulating resource
