*Sacred Matters* Associate Professor of American Religious History and Culture Gary Laderman, Gary Laderman, 2011-02 Widely praised in hardcover as a fascinating and important addition to religious and cultural studies *Sacred Matters* reveals the remarkable ways that religious practices permeate American cultural life In a country where references to God are as normal as proclaiming love of country support for the military or security for the nation s children religion scholar Gary Laderman casts his eye over our deeply hidden spiritual landscape questioning whether our conventional views even begin to capture the rich and strange diversity of religious life in America A compelling read *Sacred Matters* shows that genuinely religious practices and experiences can be found in the unlikelyst of places in science laboratories and movie theaters at the Super Bowl and Star Trek conventions and in Americans obsession with prescription drugs and pornography When devoted fans make a pilgrimage to Graceland because of their love for Elvis Laderman argues their behavior doesn t just seem religious it is religious enacting a well known ritual pattern toward saints in the history of Christianity In a dramatic reframing of what is holy and secular *Sacred Matters* makes a powerful and illuminating case that religion is everywhere and that we have barely begun to reckon with its hold on our cultural life

historical perspective of polygamy and the reason for its development in ancient African societies a view that has been historically distorted because of cultural biases and ignorance Going through school and learning about the subject of history is to many the memorization of events and dates without any real understanding of historical events Although we may know history we have no understanding about it For the most part we don't understand history because of fragmentations caused by distortion and straight out lies passed on as truth fragmentation due to the evolution of an idea evolving from one thing to another until the original idea or meaning is lost fragmentation caused from the destruction of civilizations along with the loss of the meanings of the languages and customs and therefore its history and fragmentations or distortions intentionally or unintentionally caused by an outsider when one looks through their own cultural lens in interpreting a culture that is not their own However fragmented a piece of history may be once those fragmentations are put back together as in a jigsaw puzzle only then will we be able to see the whole picture and have understanding Pure Heart Shellie R.
