Souls Karl D. Hostetler, 2011-06-16 The simple premise of this book is that the purpose of education is to serve the well being of students Well being might seem to be an obvious aim for education but it has been given insufficient attention and often is poorly understood Karl D Hostetler asks What does it mean for a human being to live a good life to experience well being How as individuals and a society can we debate and evaluate the quality of lives What classroom practices would be conducive to furthering the welfare of our students Hostetler explores how teachers can seduce students souls guiding and provoking while still respecting individuals rights to conceive and live a fulfilling life for themselves He prompts serious reflection about the purposes of education and challenges dominant ideas about the aims of education the politics of policy making and the practice of teaching *Seducing Souls* argues eloquently and provocatively for the necessity of experiences that touch the soul that elevate the young self so that students can better understand life and discern value **God, Morality,**

and Beauty Randall B. Bush, 2019-07-01 Randall B Bush analyzes the ways unacknowledged axiological assumptions e.g about what is important why human beings are valuing creatures and where the capacity to value comes from prejudice the

perspectives and approaches of various academic disciplines especially in the social sciences and the humanities The disciplines of ethics and aesthetics provide the most useful tools for a philosophy of value but academic overspecialization has compartmentalized and segregated these disciplines from others threatening to unravel the unity of conceptions of the moral and the beautiful in human existence Bush argues that a dialectical approach to conflicts between ethics and aesthetics can point to a broader axiological vision informed by a Trinitarian conception of reality in which the whole a coherent theory of value is more than the sum of its parts

Julie Tallard Johnson,2010-07-12 A guide to personal spiritual initiation through the transformation of habitual patterns apathy and resistance Based on the Native American medicine wheel the Vedic wheel and the universal initiatory mandala Enables readers from any tradition to initiate themselves through practices of thought transformation narrative medicine meditation exercises rituals and journaling Facilitates breaking through personal and societal illusions that perpetuate resistance and apathy Intentions and spiritual principles meditation and contemplation ritual and risk taking are the conditions that comprise an initiated life Regrettably in modern society we do not have rites of initiation that break through the personal and societal illusions that instill and perpetuate negative habits that keep us in states of resistance Lacking initiation practices we often remain trapped in ways of being in the world that were formed by our past conditions and attachments We tend to identify too strongly with the status quo which must be challenged to prevent stagnation and to encourage happiness and authenticity Julie Tallard Johnson shows how to become initiated into an authentic life through practices of thought transformation cultivating attention journaling storytelling and rituals found in the four directions of the universal mandala She begins the Wheel of Initiation in the South where initiates set their intentions then moves into the West where they free themselves from habitual patterns and core beliefs then into the North the direction of cultivating attention and unity and finishes in the East the direction of regeneration and initiation Drawing upon the life experiences of those who have successfully navigated the wheel Johnson demonstrates that once fears assumptions and ingrained beliefs are confronted and transformed initiates emerge ready to reenter society with renewed energy and vision that will enrich their own lives and their communities **The Seductions of Pilgrimage**
