Gerard Sitwell,1961      *Spiritual Writers of the Middle Ages* Gerard Sitwell,1961 From the eleventh to the sixteenth centuries essentially the great age of monasticism much thought was given to developing a ground plan by which the monk or friar could reach contemplation and mystical union with God Basically the writers of the age saw a fourfold division of this ground plan reading meditation prayer and contemplation While the basic ideas of spirituality were generally accepted by all writers there were divergent teachings The author here traces the main trends of these varied teachings from Benedictine spirituality of the eleventh century through the ideas of the new orders the Cistercians the Franciscans and the Dominicans down to the fifteenth century writings of Thomas Kempis whose Imitation of Christ is still one of the best known and most loved spiritual guides The author also deals at length with the writings of St Bernard of Clairvaux the major spiritual theologian of the Middle Ages      **Spiritual writers of the Middle Ages the Twentieth Century Encyclopedia of Catholicism Vol.40 ,1961      **Christian Spirituality: In the middle ages, translated by S. English Spirituality in the Age of Wesley David Lyle Jeffrey,2000-12      **A Cultural History of the Emotions in the Medieval Age** Juanita Ruys,Clare Monagle,2020-08-20 Our period opens at the end of the Roman Empire when intellectual currents are indebted to the Greek philosophical inheritance of Plato and Aristotle as well as to a Romanized Stoicism Into this mix entered the new and from 313CE imperially sanctioned religion of Christianity In art literature music and drama we find an increasing emphasis on the arousal of individual emotions and their acceptance as a means towards devotion In religion we see a move from the ascetic regulation of emotions to the affective piety of the later medieval period that valued the believer's identification with the Passion of Christ and the sorrow of Mary In science and medicine the nature and causes of emotions their role in constituting the human person and their impact on the same became a subject of academic inquiry Emotions also played an increasingly important public role evidenced in populace wide events such as conversion and the strategies of rulership Between 350 and 1300 emotions were transformed from something to be transcended into a location for meditation upon what it means to be human      *Mysticism and Spirituality in Medieval England* William F. Pollard,Robert Boenig,1997 The late fourteenth and early fifteenth centuries in England were a golden age of mysticism the major figures could draw on and allude to a host of treatises as the Cloud author acknowledges when he explains how the works of St Denis validate all he writes about Without Denis without the theologians of the eleventh and twelfth centuries without the anchoritic writings of the thirteenth century Richard Rolle Julian of Norwich Walter Hilton Margery Kempe could not have written as they did Likewise those who followed them the Wycliffites the Brigittines the writers of religious lyrics responded to those who had gone before The articles presented here identify major themes and the web of influence that link them new

but solid interpretations are offered of the key figures and their backgrounds and the emphasis is on the rich variety of mysticism these authors and texts embody

*Mental Health, Spirituality, and Religion in the Middle Ages and Early Modern Age* Albrecht Classen, 2014-07-28 This volume continues the critical exploration of fundamental issues in the medieval and early modern world here concerning mental health spirituality melancholy mystical visions medicine and well being The contributors who originally had presented their research at a symposium at The University of Arizona in May 2013 explore a wide range of approaches and materials pertinent to these issues taking us from the early Middle Ages to the eighteenth

century capping the volume with some reflections on the relevance of religion today Lapidary sciences matter here as much as medical psychological research combined with literary and art historical approaches The premodern understanding of mental health is not taken as a miraculous panacea for modern problems but the contributors suggest that medieval and early modern writers scientists and artists commanded a considerable amount of arcane sometimes curious and speculative knowledge that promises to be of value and relevance even for us today once again Modern palliative medicine finds for instance intriguing parallels in medieval word magic and the mystical perspectives encapsulated highly productive alternative perceptions of the macrocosm and microcosm that promise to be insightful and important also for the post modern world
