Dresser, 2017-06-30 Excerpt from Spiritual Health and Healing Interest in spiritual healing has reached a point where it is no longer necessary to dwell on such elementary matters as the influence of fear and worry the power of suggestion and the utilizing of the subconscious These considerations are now taken for granted by those who believe that inner healing is more than mental Suggestion is not regarded as decisive except by those who would ignore the spiritual life and limit healing to the Sphere of psychology For those of us who believe that the spiritual life is inseparable from true spiritual healing the question of mental influences and mental methods is forever secondary It ought rather to be a question of cultivating the mode of life which produces Spiritual health All our efforts should be constructive Our clues should be drawn from the ideal not through study of conditions which produce disease About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
