
Introduction to the world Religions and beliefs system

THE CONCEPT, ELEMENTS, AND CHARACTERISTICS OF BELIEF SYSTEM, WORLDVIEW, RELIGION AND SPIRITUALITY

Durkheim (1951) shared that religion is a unified system of beliefs and practices relative to sacred things, set apart and forbidden—beliefs and practices which unite into one single moral community called a church, all those who adhere to them.

It is expressly stated and organized belief system. It has an external focus and formal structure. Its goal is 'salvation' though one truth and one right way. It is faith based. People inherit sinfulness. It gives significance to praise and worship. Belief in a superhuman power outside of you, the creator of universe. Dictated belief or conditioned mind. God is inside the Mind.

A worldview is a view of the world, used for living in the world. A world view is a mental model of reality — a comprehensive frame work of ideas & attitudes about the world, ourselves, and life, a system of beliefs, a system of personally customized theories about the world and how it works — with answers for a wide range of questions: What are humans, why are we here, and what is our purpose in life? What are your goals for life? When you make decisions about using time — It is the stuff life is made of — What are your values and priorities? The two concepts "Philosophy" and "worldview" are closely related. Talking about "Philosophy" in its broadest sense refers in fact to a worldview. It is the case for example when we speak about the philosophy of the Inuit or the Maya. It summarized the relationships between worldview and philosophy. With the definition which will follow, our position tends towards what he calls "worldview crowns philosophy", that is, constructing a worldview is the highest manifestation of philosophy.

Belief system are beliefs that fit together in a system to make sense of the universe and our place in it. It can be shared, and its ideals are practiced by a group. It is an ideology or set of principles that helps us to interpret our everyday reality. This could be in the form of Religion, Political Affiliation, Philosophy, or Spirituality, among many other things. These beliefs are shaped and influenced by a number of different factors. Our knowledge In a certain topic, the way we we're raised, and even peer pressure from others can help to create and even change our belief systems the convictions that come from these systems are a way for us to make sense of the world around us and to define our role within it.

According to Parikh, Rohit Manilal (2020) spiritually is an inner part of our life for receiving inner urge and dignity within for living a better & worthy life to make the life for faithful action to live in a better mode. For death it is certain for entire human being for which the time & period is unknown as it also our final journey for which everyone must go with an empty hand.
